

117TH CONGRESS 1ST SESSION

S. 240

To support children with disabilities during the COVID-19 pandemic.

IN THE SENATE OF THE UNITED STATES

February 4, 2021

Mr. Murphy (for himself, Ms. Hassan, and Mr. Van Hollen) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To support children with disabilities during the COVID— 19 pandemic.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "Supporting Children
- 5 with Disabilities During COVID-19 Act".
- 6 SEC. 2. FINDINGS.
- 7 Congress finds the following:
- 8 (1) A free appropriate public education is a
- 9 fundamental educational right of all children with
- disabilities, guaranteed by the Rehabilitation Act of

- 1 1973 (29 U.S.C. 701 et seq.) and the Individuals 2 with Disabilities Education Act (20 U.S.C. 1400 et 3 seq.).
 - (2) More than 7,000,000 school-aged children with disabilities, approximately 13 percent of the total student enrollment, are currently entitled to individualized education and related services mandated by the Individuals with Disabilities Education Act.
 - (3) Nearly 500,000 infants and toddlers, as well as their families, receive supports and services under the Individuals with Disabilities Education Act and these early interventions have been proven to improve education outcomes.
 - (4) Under the Individuals with Disabilities Education Act, schools and lead agencies responsible for the administration of funds under part C of the Individuals with Disabilities Education Act (20 U.S.C. 1431 et seq.) (referred to in this Act as "lead agencies") are required to provide early intervention, special education, and related services to children with disabilities, an obligation that requires services outlined in a child's individualized family service plan (referred to as an "IFSP") or individualized education program (referred to as an "IEP").

- 1 (5) Children with disabilities have been dis2 proportionately impacted by the disruptions to edu3 cation resulting from the COVID-19 pandemic, with
 4 many children with disabilities needing additional
 5 supports and services to meet their IEP and IFSP
 6 goals as the delivery of education and services has
 7 shifted from in-person to remote formats.
 - (6) Local educational agencies and lead agencies face extra costs associated with adjusting services and continuing to provide a free, appropriate public education while children with disabilities are receiving services through distance learning and remote service delivery.
 - (7) Schools are facing unprecedented budget challenges due to the rising costs of responding to COVID-19, coupled with State and local revenue shortfalls, as well as the severe and persistent underfunding of the Individuals with Disabilities Education Act.
 - (8) To ensure that schools and lead agencies continue to meet the needs of children with disabilities and their families, including providing trained and certified special educators and education support specialists, emergency supplemental funding is

1	needed under the Individuals with Disabilities Edu-
2	cation Act.
3	(9) Emergency supplemental funding is also
4	needed under the Assistive Technology Act of 1998
5	(29 U.S.C. 3001 et seq.) because services provided
6	under that Act help ensure that students with dis-
7	abilities have the technology devices and services
8	they need to access equal educational opportunities.
