IN THE SENATE OF THE UNITED STATES

MARCH 29, 2023

Mr. CASEY (for himself, Mrs. GILLIBRAND, Ms. WARREN, Ms. DUCKWORTH, Mr. BLUMENTHAL, Mr. MARKEY, Mr. WYDEN, Mr. SANDERS, Mr. WELCH, and Ms. SMITH) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To ensure that older adults and individuals with disabilities are prepared for disasters, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Real Emergency Ac-
5 cess for Aging and Disability Inclusion for Disasters Act”
6 or the “REAADI for Disasters Act”.

7 **SEC. 2. FINDINGS AND SENSE OF CONGRESS.**

8 (a) FINDINGS.—Congress makes the following find-
9 ings:

1 (1) In the United States, according to the Cen-
2 ters for Disease Control and Prevention, there are
3 more than 61,000,000 adults who are individuals
4 with disabilities and, according to the Bureau of the
5 Census, there are more than 54,000,000 adults age
6 65 or older.

7 (2) There have been more than 145 hurricanes,
8 resulting in over 2,000 deaths, in the United States
9 since 2000.

10 (3) The National Oceanic and Atmospheric Ad-
11 ministration estimates that—

12 (A) the cumulative damage from weather-
13 and climate-related disasters in 2022 cost the
14 United States over \$165,000,000,000; and

15 (B) 18 of the disasters in 2022 cost over
16 \$1,000,000,000 each.

17 (4) Individuals with disabilities and older adults
18 have been found to die at higher rates, compared to
19 the general population, during disasters.

20 (5) According to the Federal Emergency Man-
21 agement Agency, in 2022—

22 (A) the United States experienced 90 de-
23 clared disasters affecting more than 54,000,000
24 people; and

1 (B) more than 16,000,000 of those people
2 were adults who were individuals with disabili-
3 ties.

4 (6) Failure to provide accessibility for, or plan
5 for accommodating, individuals with physical or sen-
6 sory disabilities, chronic illness, or mental disabilities
7 decreases the ability of those individuals to evacuate
8 prior to or during a disaster.

9 (7) Households of individuals with disabilities
10 are more likely to need assistance and are less likely
11 to be able to evacuate in advance of disasters.

12 (8) Less than a third of individuals with intel-
13 lectual disabilities and individuals needing personal
14 care attendants have planned with their personal
15 care providers what to do in a disaster.

16 (9) Evacuation information, including orders, is
17 not uniformly communicated in ways and via media
18 that are accessible to individuals with disabilities, in-
19 cluding being communicated in ways that lack use of
20 American Sign Language, captions, and plain lan-
21 guage on websites, instructional materials, and tele-
22 vision and radio announcements.

23 (10) Displaced individuals with disabilities
24 served in general population shelters have better ac-
25 cess to information and material resources than indi-

1 individuals with disabilities in specially designed shel-
2 ters.

3 (11) Despite better access to information and
4 resources, personnel in general population shelters
5 often do not have the resources or training to ad-
6 dress the needs of individuals with disabilities and
7 older adults.

8 (12) Public shelters often do not have dis-
9 ability-related accommodations, often forcing individ-
10 uals with disabilities and older adults to be seg-
11 regated, sometimes apart from their families and
12 natural supports during disasters.

13 (13) Households with individuals with disabil-
14 ities sustain more costly property damage from dis-
15 asters than households without individuals with dis-
16 abilities.

17 (14) Historically, disaster-related recommenda-
18 tions for individuals with disabilities and older
19 adults have been typically aimed at caregivers and
20 service providers, not individuals with disabilities
21 and older adults themselves.

22 (15) Thousands of individuals with disabilities
23 have been denied their civil rights because they do
24 not receive accessible notice during disasters—

1 (A) of spoken instructions via phone or
2 video; or

3 (B) of instructions regarding evacuations,
4 sheltering, and other procedures during disas-
5 ters.

6 (16) Disaster shelters and services do not rou-
7 tinely have American Sign Language interpreters
8 nor procedures written or presented in plain lan-
9 guage.

10 (17) Individuals with disabilities and older
11 adults are more at risk for loss of life, loss of inde-
12 pendence, or violation of civil rights than the general
13 population during times of disasters, response, and
14 recovery.

15 (b) SENSE OF CONGRESS.—It is the sense of Con-
16 gress that—

17 (1) individuals with disabilities and older adults
18 should be supported during times of disasters, and
19 during disaster preparedness, response, recovery,
20 and mitigation in order to—

21 (A) ensure maintenance of and access to
22 services and supports; and

23 (B) enable those individuals and adults to
24 return to their communities in a timely manner
25 as compared with the general population;

1 (2) during the recovery and mitigation phases
2 of disaster response, all buildings and services
3 should be designed, and constructed or recon-
4 structed, according to principles of universal design
5 and to the standards established by the Architec-
6 tural and Transportation Barriers Compliance
7 Board in order to ensure access for individuals with
8 disabilities, older adults, and all individuals;

9 (3) individuals with disabilities and older adults
10 should have access to shelters and other services
11 during disasters in the same locations and settings
12 as the general population;

13 (4) individuals with disabilities and older adults
14 should receive information about preparation for, re-
15 sponse to, recovery from, and mitigation of disasters
16 in formats accessible to them, including in American
17 Sign Language, Braille, and plain language, as well
18 as captioned video messages;

19 (5) individuals with disabilities and older adults
20 must be included as key speakers, essential stake-
21 holders, and decisionmakers in the preparation (in-
22 cluding planning), response, recovery, and mitigation
23 phases of disasters;

24 (6) local, State (including territorial), Tribal,
25 and Federal disaster planning must include robust

1 representation of individuals with disabilities and
2 older adults; and

3 (7) individuals with disabilities and older adults
4 must be included in the evaluation of governmental,
5 VOAD, and other nongovernmental preparation (in-
6 cluding planning), response, recovery, and mitigation
7 of disasters.

8 **SEC. 3. PURPOSES.**

9 The purposes of this Act are to—

10 (1) improve the inclusion of individuals with
11 disabilities and older adults in the preparation for,
12 response to, recovery from, and mitigation of disas-
13 ters;

14 (2) ensure that individuals with disabilities and
15 older adults with disabilities are free from discrimi-
16 nation on the basis of disability or age in programs
17 and activities, are protected during and included in
18 all phases of disaster preparation, response, recov-
19 ery, and mitigation;

20 (3) ensure compliance with the Americans with
21 Disabilities Act of 1990, the Rehabilitation Act of
22 1973, and other disability laws during preparation
23 for, response to, recovery from, and mitigation of
24 disasters;

1 (4) improve coordination among the commu-
2 nities of individuals with disabilities and older
3 adults, including multiply marginalized BIPOC and
4 LGBTQ+ communities, government agencies, cen-

6 governmental organizations, including organizations
7 that represent and are comprised of covered individ-
8 uals; in preparing (including planning) for, respond-
9 ing to, recovery from, and mitigation of disasters;

10 (5) improve outcomes for all individuals, includ-
11 ing individuals with disabilities and older adults, who
12 are affected by disasters, and increase community
13 resilience in responding to disasters; and

14 (6) enact into Federal law standards of care
