53G-7-1003, as renumbered and amended by Laws of Utah 2018, Chapter 3

Be it enacted by the Legislature of the state of Utah:

Section 1. Section 53G-7-1002 is amended to read:

53G-7-1002. Internet and online safety policy required.

(1) State funds may not be provided to any local school board that provides access to the Internet or an online service unless the local school board adopts and enforces a policy to restrict access to Internet or online sites, databases, or networks that contain obscene or pornographic material as described in Section 76-10-1203.

(2) This part applies to any computer, phone, or other device capable of accessing the Internet provided to students or educators.

Section 2. Section 53G-7-1003 is amended to read:

53G-7-1003. Process and content standards for policy -- Internal testing of filters.

(1) "Policy" as used in this section means the elementary and secondary school online access policy adopted by a local school board to meet the requirements of Section 53G-7-1002.

(2) (a) Each policy shall be developed under the direction of the local school board, adopted in an open meeting, and have an effective date. The local school board shall review the policy at least every three years, and a footnote shall be added to the policy indicating the effective date of the last review.

(b) Notice of the availability of the policy shall be posted in a conspicuous place within each school. The local school board may issue any other public notice it considers appropriate.

(3) The policy shall:

(a) state that it restricts access to Internet or online sites, databases, or networks that contain obscene or pornographic material and shall state how the local school board intends to meet the requirements of Section 53G-7-1002;

(b) inform the public that administrative procedures and guidelines for the staff to follow in enforcing the policy have been adopted and are available for review at the school; and

(c) inform the public that procedures to handle complaints about the policy, its enforcement, or about observed behavior have been adopted and are available for review at the school.

(4) The local school board shall periodically, but not less than every six months,

59 perform a check of the Internet filtering software utilized by each school to insure that the
60 requirements of Section 53G-7-1002 are being met. These checks shall take into consideration
61 parental complaints received by a school regarding content accessed by students.

62 (5) The local school board shall create a record each time a check of Internet filtering
63 software allows access to obscene or pornographic material. The records shall be compiled into
64 a report and provided to the Internet filtering software provider.

65 (6) Records created in accordance with Subsection (5) shall be compiled and reported
66 to the state school board not later than September 30 of each year. The report shall detail efforts
67 to curtail the access reported in Subsection (5).

68 (7) The state school board shall compile all records received in accordance with
69 Subsection (6) into a report to be presented to the Education Interim Committee no later than
70 November 30 of each year.
