

1 AN ACT relating to tissue sample collection in post-mortem examinations.

2 ***Be it enacted by the General Assembly of the Commonwealth of Kentucky:***

3 ➔Section 1. KRS 213.161 is amended to read as follows:

4 (1) In order to obtain information which may be useful to research organizations  
5 studying the causes and incidence of the sudden infant death syndrome, a program  
6 is hereby established in the Cabinet for Health and Family Services. The purpose of  
7 this program shall be to obtain factual information concerning the characteristics,  
8 incidence, and distribution of the sudden infant death syndrome throughout the  
9 Commonwealth and to provide a means of public education concerning any  
10 research findings which may lead to the possible means of prevention, early  
11 identification, and treatment of children susceptible to the sudden infant death  
12 syndrome.

13 (2) In instances where an ostensibly healthy child dies suddenly and unexpectedly with  
14 no known or apparent cause as determined by a physician or a coroner, an autopsy  
15 with the written approval of the parents or legal guardian of the child shall be  
16 performed within forty-eight (48) hours and the results reported to the cabinet and  
17 to the parents or legal guardian of the child.

18 **(3) *At the request of the parent or legal guardian of a child who has died under***  
19 ***circumstances described in subsection (2) of this section or in the case of the***  
20 ***death of any child, a tissue sample may be collected during the post-mortem***  
21 ***examination of the child's body and shared with research organizations for***  
22 ***research purposes.***

23 ~~(4)~~(3) In order to implement the provisions of this section, the secretary of the  
24 Cabinet for Health and Family Services shall:

25 (a) Promulgate administrative regulations as may be necessary in order to obtain  
26 in proper form all information relating to the occurrence of sudden infant  
27 deaths which is relevant and appropriate for the establishment of a reliable

1 statistical index of the incidence, distribution, and characteristics of cases of  
2 the sudden infant death syndrome;

3 (b) Collect such factual information from physicians, coroners, medical  
4 examiners, hospitals, and public health officials who have examined any child  
5 known or believed to have the sudden infant death syndrome;

6 (c) Make such factual information available to physicians, coroners, medical  
7 examiners, hospitals, public health officials, and educational and institutional  
8 organizations conducting research as to the causes and incidence of the sudden  
9 infant death syndrome;

10 (d) Cause appropriate counseling services to be established and maintained for  
11 families affected by the occurrence of the sudden infant death syndrome; and

12 (e) Conduct educational programs to inform the general public of any research  
13 findings of educational and institutional organizations which may lead to the  
14 possible means of prevention, early identification, and treatment of the sudden  
15 infant death syndrome.

16 ➔Section 2. KRS 72.405 is amended to read as follows:

17 As used in KRS 72.410 to 72.470, unless the context clearly indicates otherwise:

18 (1) "Coroner ordered autopsy" means an autopsy ordered by the coroner having  
19 jurisdiction and performed by a pathologist pursuant to such authorization in order  
20 to ascertain the cause and manner of death in a coroner's case. In the event the  
21 pathologist deems it necessary, he may submit the appropriate specimen to a  
22 qualified chemist or toxicologist for analysis to assist him in ascertaining the cause  
23 of death in a coroner's case;

24 (2) "Coroner's case" means a case in which the coroner has reasonable cause for  
25 believing that the death of a human being within his county was caused by any of  
26 the conditions set forth in KRS 72.025;

27 (3) "Inquest" means an examination ordered by the coroner, or in his absence, ordered

1 by a deputy coroner, into the causes and circumstances of any death which is a  
2 coroner's case by a jury of six (6) residents of the county impaneled and selected by  
3 the coroner to assist him in ascertaining the cause and manner of death;

4 (4) "Post-mortem examination" means a physical examination of the body by a medical  
5 examiner or by a coroner or deputy coroner who has been certified by the Justice  
6 and Public Safety Cabinet and may include an autopsy performed by a pathologist,  
7 ~~for~~ other appropriate scientific tests administered to determine cause of death, or  
8 *collection of tissue samples collected pursuant to subsection (3) of Section 1 of*  
9 *this Act*; and

10 (5) "Certified coroner" or "certified deputy coroner" means a coroner or deputy coroner  
11 who has been certified by the Justice and Public Safety Cabinet to have successfully  
12 completed both the basic training course and annual inservice training course  
13 required by KRS 72.415, except that a deputy coroner shall be certified without  
14 completion of training courses required by KRS 72.415 if he is a licensed physician.  
15 The secretary of justice and public safety may waive the requirement for basic  
16 training and certify a coroner during the eighteen (18) month period after July 15,  
17 1982, if the advisory commission set forth in KRS 72.225 certifies to the secretary  
18 after a thorough review that the experience and knowledge of the specific coroner is  
19 such that he is qualified to be a certified coroner without taking the basic training.
