

115TH CONGRESS 2D SESSION

S. 2643

To clarify the effect of certain final rules and determinations of the Environmental Protection Agency relating to greenhouse gas emissions standards for light-duty vehicles.

IN THE SENATE OF THE UNITED STATES

APRIL 10, 2018

Mr. Markey (for himself, Mr. Whitehouse, Mr. Van Hollen, Ms. Smith, Mr. Blumenthal, Mr. Merkley, and Mr. Bennet) introduced the following bill; which was read twice and referred to the Committee on Environment and Public Works

A BILL

To clarify the effect of certain final rules and determinations of the Environmental Protection Agency relating to greenhouse gas emissions standards for light-duty vehicles.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "Greener Air Standards
- 5 Mean Our National security, Environment, and Youth
- 6 Saved Act" or the "GAS MONEY Saved Act".

1 SEC. 2. FINDINGS.

2	Congress finds that—
3	(1) in 2009, the National Highway Traffic
4	Safety Administration of the Department of Trans-
5	portation and the Environmental Protection Agency
6	reached an historic agreement with State regulators,
7	automakers, the International Union, United Auto-
8	mobile, Aerospace, and Agricultural Implement
9	Workers of America, and leaders in the environ-
10	mental community to establish a program of Federal
11	standards, known as "One National Program", to
12	reduce greenhouse gas emissions and increase cor-
13	porate average fuel economy for light-duty vehicles,
14	in cooperation and alignment with the California Air
15	Resources Board;
16	(2) in 2012, as part of One National Pro-
17	gram—
18	(A) the Environmental Protection Agency
19	established final greenhouse gas emission stand-
20	ards for vehicles of model years 2017 through
21	2025; and
22	(B) the National Highway Traffic Safety
23	Administration established final—
24	(i) corporate average fuel economy
25	standards for vehicles of model years 2017
26	through 2021; and

1	(ii) augural standards for vehicles of
2	model years 2022 through 2025;
3	(3)(A) the standards described in paragraph (2)
4	are based on the specific footprint of vehicles for the
5	purposes of—
6	(i) providing automotive manufacturers
7	flexibility; and
8	(ii) ensuring that consumers have a choice
9	of a full range of vehicle sizes to meet their
10	needs; and
11	(B) under that footprint-based system, small
12	vehicles are required to meet more stringent stand-
13	ards than large vehicles;
14	(4) the Environmental Protection Agency, to-
15	gether with the National Highway Traffic Safety
16	Administration and the California Air Resources
17	Board, jointly published a robust research and anal-
18	ysis document, known as the "Technical Assessment
19	Report", that clearly demonstrated that the existing
20	standards are technically feasible and cost-effective;
21	(5) in January 2017, the Environmental Pro-
22	tection Agency issued a final determination to main-
23	tain the existing greenhouse gas emissions standards
24	for vehicles of model years 2022 through 2025, as
25	prescribed by the final rule described in paragraph

1	(2)(A), noting that the standards could have been
2	strengthened but were not, in order to ensure cer-
3	tainty for the automobile manufacturers;
4	(6) the National Highway Traffic Safety Ad-
5	ministration—
6	(A) as of the date of enactment of this
7	Act, is assessing the augural standards de-
8	scribed in paragraph (2)(B)(ii); and
9	(B) will conduct a rulemaking to prescribe
10	final standards for vehicles of model years 2022
11	through 2025; and
12	(7) on April 2, 2018, the Environmental Pro-
13	tection Agency issued a final determination entitled
14	"Mid-term Evaluation of Greenhouse Gas Emissions
15	Standards for Model Year 2022-2025 Light-duty
16	Vehicles", which—
17	(A) rejected an extensive technical record
18	that—
19	(i) includes more than 2,000 pages;
20	and
21	(ii) was created through—
22	(I) a research period of 8 years;
23	(II) a review of several hundred
24	published reports;

1	(III) hundreds of stakeholder
2	meetings; and
3	(IV) multiple opportunities for
4	public comment;
5	(B) failed—
6	(i) to take into consideration extensive
7	peer-reviewed publications, including from
8	the technical staff of the Environmental
9	Protection Agency, demonstrating the abil-
10	ity of automobile manufacturers to meet
11	the standards described in paragraph (2)
12	through model year 2025; and
13	(ii) to provide evidence to refute the
14	findings contained in the final determina-
15	tion of the Environmental Protection
16	Agency entitled "Final Determination on
17	the Appropriateness of the Model Year
18	2022-2025 Light-Duty Vehicle Greenhouse
19	Gas Emissions Standards under the Mid-
20	term Evaluation" and dated January 12,
21	2017, that—
22	(I) automobile manufacturers are
23	well positioned, and have a wide range
24	of technology pathways available, to
25	meet the standards described in para-

1	graph (2) at lower costs than pre-
2	viously estimated; and
3	(II) although the technical record
4	indicated that those standards could
5	be made more stringent, maintaining
6	the standards would provide regu-
7	latory certainty for the automobile in-
8	dustry; and
9	(C) was not based on a complete technical
10	review of the evidence, but was an attack on the
11	largest climate policy in effect on the date of
12	the final determination.
13	SEC. 3. GREENHOUSE GAS EMISSIONS STANDARDS FOR
	SEC. 3. GREENHOUSE GAS EMISSIONS STANDARDS FOR LIGHT-DUTY VEHICLES.
13	
13 14	LIGHT-DUTY VEHICLES.
13 14 15 16	LIGHT-DUTY VEHICLES. (a) In General.—Notwithstanding the notice of the
13 14 15 16 17	LIGHT-DUTY VEHICLES. (a) IN GENERAL.—Notwithstanding the notice of the Environmental Protection Agency entitled "Mid-term
13 14 15 16 17	LIGHT-DUTY VEHICLES. (a) IN GENERAL.—Notwithstanding the notice of the Environmental Protection Agency entitled "Mid-term Evaluation of Greenhouse Gas Emissions Standards for
13 14 15 16 17	LIGHT-DUTY VEHICLES. (a) IN GENERAL.—Notwithstanding the notice of the Environmental Protection Agency entitled "Mid-term Evaluation of Greenhouse Gas Emissions Standards for Model Year 2022-2025 Light-duty Vehicles" and dated
13 14 15 16 17 18	LIGHT-DUTY VEHICLES. (a) IN GENERAL.—Notwithstanding the notice of the Environmental Protection Agency entitled "Mid-term Evaluation of Greenhouse Gas Emissions Standards for Model Year 2022-2025 Light-duty Vehicles" and dated April 2, 2018, the following shall have the force and effect
13 14 15 16 17 18 19 20	LIGHT-DUTY VEHICLES. (a) IN GENERAL.—Notwithstanding the notice of the Environmental Protection Agency entitled "Mid-term Evaluation of Greenhouse Gas Emissions Standards for Model Year 2022-2025 Light-duty Vehicles" and dated April 2, 2018, the following shall have the force and effect of law:
13 14 15 16 17 18 19 20 21	LIGHT-DUTY VEHICLES. (a) IN GENERAL.—Notwithstanding the notice of the Environmental Protection Agency entitled "Mid-term Evaluation of Greenhouse Gas Emissions Standards for Model Year 2022-2025 Light-duty Vehicles" and dated April 2, 2018, the following shall have the force and effect of law: (1) The final rule of the Environmental Protection

- Fed. Reg. 62624 (October 15, 2012)) (as in effect
 on April 1, 2018).
- 3 (2) The final determination of the Environ4 mental Protection Agency entitled "Final Deter5 mination on the Appropriateness of the Model Year
 6 2022-2025 Light-Duty Vehicle Greenhouse Gas
 7 Emissions Standards under the Midterm Evalua8 tion" and dated January 12, 2017 (as in effect on
 9 April 1, 2018).
- 10 (b) Limitation on Certain Actions.—The Administrator of the Environmental Protection Agency may not 12 issue any rules or take any action that would effectively reduce the stringency of greenhouse gas emissions stand-14 ards required to be attained by each fleet of light-duty 15 vehicles manufactured for sale in the United States for model years 2022 through 2025 under the regulation de-16 17 scribed in subsection (a)(1), as affirmed by the final determination described in subsection (a)(2). 18
