S. 2401

To reauthorize the Assistive Technology Act of 1998, and for other purposes.

IN THE SENATE OF THE UNITED STATES

JULY 20, 2021

Mr. CASEY (for himself, Ms. COLLINS, Ms. HASSAN, and Mr. CRAMER) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To reauthorize the Assistive Technology Act of 1998, and
for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “21st Century Assistive
5 Technology Act”.

6 **SEC. 2. REAUTHORIZATION.**

7 The Assistive Technology Act of 1998 (29 U.S.C.
8 3001 et seq.) is amended to read as follows:

1 **“SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

2 “(a) SHORT TITLE.—This Act may be cited as the
3 ‘Assistive Technology Act of 1998’.

4 “(b) TABLE OF CONTENTS.—The table of contents
5 of this Act is as follows:

“Sec. 1. Short title; table of contents.

“Sec. 2. Findings and purposes.

“Sec. 3. Definitions.

“Sec. 4. Grants for State assistive technology programs.

“Sec. 5. State grants for protection and advocacy services related to assistive
technology.

“Sec. 6. Technical assistance and data collection support.

“Sec. 7. Projects of national significance.

“Sec. 8. Administrative provisions.

“Sec. 9. Authorization of appropriations; reservations and distribution of funds.

6 **“SEC. 2. FINDINGS AND PURPOSES.**

7 “(a) FINDINGS.—Congress finds the following:

8 “(1) Over 54,000,000 individuals in the United
9 States have disabilities, with almost half experi-
10 encing severe disabilities that affect their ability to
11 see, hear, communicate, reason, walk, or perform
12 other basic life functions.

13 “(2) Disability is a natural part of the human
14 experience and in no way diminishes the right of in-
15 dividuals to—

16 “(A) live independently;

17 “(B) enjoy self-determination and make
18 choices;

19 “(C) benefit from an education;

20 “(D) pursue competitive, integrated em-
21 ployment; and

1 “(E) enjoy full inclusion and integration in
2 the economic, political, social, cultural, and edu-
3 cational mainstream of society in the United
4 States.

5 “(3) Technology is one of the primary engines
6 for economic activity, education, and innovation in
7 the Nation, and throughout the world. The commit-
8 ment of the United States to the development and
9 utilization of technology is one of the main factors
10 underlying the strength and vibrancy of the economy
11 of the United States.

12 “(4) As technology has come to play an increas-
13 ingly important role in the lives of all persons in the
14 United States, in the conduct of business, in the
15 functioning of government, in the fostering of com-
16 munication, in the conduct of commerce, and in the
17 provision of education, its impact upon the lives of
18 individuals with disabilities in the United States has
19 been comparable to its impact upon the remainder
20 of the citizens of the United States. Any develop-
21 ment in mainstream technology will have profound
22 implications for individuals with disabilities in the
23 United States.

24 “(5) Substantial progress has been made in the
25 development of assistive technology devices, includ-

1 ing adaptations to existing devices that facilitate ac-
2 tivities of daily living that significantly benefit indi-
3 viduals with disabilities of all ages. These devices,
4 including adaptations, increase involvement in, and
5 reduce expenditures associated with, programs and
6 activities that facilitate communication, ensure inde-
7 pendent functioning, enable early childhood develop-
8 ment, support educational achievement, provide and
9 enhance employment options, and enable full partici-
10 pation in community living for individuals with dis-
11 abilities. Access to such devices can also reduce ex-
12 penditures associated with early childhood interven-
13 tion, education, rehabilitation and training, health
14 care, employment, residential living, independent liv-
15 ing, recreation opportunities, and other aspects of
16 daily living.

17 “(6) Over the last 15 years, the Federal Gov-
18 ernment has invested in the development of com-
19 prehensive statewide programs of technology-related
20 assistance, which have proven effective in assisting
21 individuals with disabilities in accessing assistive
22 technology devices and assistive technology services.
23 This partnership between the Federal Government
24 and the States provided an important service to indi-
25 viduals with disabilities by strengthening the capac-

1 ity of each State to assist individuals with disabili-
2 ities of all ages meet their assistive technology
3 needs.

4 “(7) Despite the success of the Federal-State
5 partnership in providing access to assistive tech-
6 nology devices and assistive technology services,
7 there is a continued need to provide information and
8 legally based advocacy about the availability of as-
9 sistive technology, advances in improving accessi-
10 bility and functionality of assistive technology, and
11 appropriate methods to secure and utilize assistive
12 technology in order to maximize the independence
13 and participation of individuals with disabilities in
14 society.

15 “(8) The combination of significant recent
16 changes in Federal policy (including changes to sec-
17 tion 508 of the Rehabilitation Act of 1973 (29
18 U.S.C. 794d)), accessibility provisions of the Help
19 America Vote Act of 2002 (42 U.S.C. 15301 et
20 seq.), and the amendments made to the Elementary
21 and Secondary Education Act of 1965 (20 U.S.C.
22 6301 et seq.) by the No Child Left Behind Act of
23 2001 (Public Law 107–110; 115 Stat. 1425) and
24 the rapid and unending evolution of technology re-
25 quire a Federal-State investment in State assistive

1 technology programs, as well as an investment in
2 protection and advocacy systems, to continue to en-
3 sure that individuals with disabilities reap the bene-
4 fits of the technological revolution and participate
5 fully in life in their communities.

6 “(b) PURPOSES.—The purposes of this Act are—

7 “(1) to support State efforts to improve the
8 provision of assistive technology to individuals with
9 disabilities through a comprehensive statewide con-
10 tinuum of integrated activities, for individuals with
11 disabilities of all ages, that are designed to—

12 “(A) increase the availability of, funding
13 for, access to, provision of, and training about
14 assistive technology devices and assistive tech-
15 nology services;

16 “(B) increase the ability of individuals
17 with disabilities of all ages to secure and main-
18 tain possession of assistive technology devices
19 as such individuals make the transition between
20 services offered by educational or human service
21 agencies or between settings of daily living (for
22 example, between home and work);

23 “(C) increase the capacity of public agen-
24 cies and private entities to provide and pay for
25 assistive technology devices and assistive tech-

1 nology services on a statewide basis for individ-
2 uals with disabilities of all ages;

3 “(D) increase the involvement of individ-
4 uals with disabilities and, if appropriate, their
5 family members, guardians, advocates, and au-
6 thorized representatives, in decisions related to
7 the provision of assistive technology devices and
8 assistive technology services;

9 “(E) increase and promote coordination
10 among State agencies, between State and local
11 agencies, among local agencies, and between
12 State and local agencies and private entities
13 (such as managed care providers), that are in-
14 volved or are eligible to be involved in carrying
15 out activities under this Act;

16 “(F) increase the awareness and facilitate
17 the change of laws, regulations, policies, prac-
18 tices, procedures, and organizational structures,
19 that facilitate the availability or provision of as-
20 sistive technology devices and assistive tech-
21 nology services; and

22 “(G) increase awareness and knowledge of
23 the benefits of assistive technology devices and
24 assistive technology services among individuals
25 with disabilities and their families, older indi-

1 viduals and their families, and the general pop-
2 ulation; and

3 “(2) to provide States and protection and advoca-
4 cacy systems with financial assistance that supports
5 programs designed to maximize the ability of indi-
6 viduals with disabilities and their family members,
7 guardians, advocates, and authorized representatives
8 to obtain assistive technology devices and assistive
9 technology services.
