This subtitle constitutes the public policy of the State. (b)

1 1–302.

- 2 (a) The following principles of The Blueprint for Maryland's Future are intended 3 to transform Maryland's early childhood, primary, and secondary education system to the 4 levels of high-performing systems around the world so that Maryland's education system:
- 5 (1) Provides its students with instruction and skills set to international 6 standards that will enable them to be successful in the 21st-century economy and 7 productive citizens of the State;
- 8 (2) Gives its children access to educational experiences and opportunities 9 beginning in early childhood that enable them to reach their full promise and potential and 10 be ready for success in college and a rewarding career by the end of high school; and
- 11 (3) Elevates overall student performance to be among the world's best and 12 eliminates achievement and opportunity gaps between students from different family 13 incomes, races, ethnicities, abilities and disabilities, and other defining characteristics.
- 14 (b) Achieving the principles of The Blueprint for Maryland's Future will require 15 a sustained and coordinated statewide effort and a strong accountability system that will 16 hold all entities accountable for implementing the policies effectively so that the public and 17 especially parents will have confidence that the investment in the policies outlined in § 18 1–303 of this subtitle will achieve the desired outcomes.
- 19 1–303.
- The foundation of a world–class education system in Maryland under The Blueprint for Maryland's Future for education will require:
- 22 (1) Early support and interventions for young children and their families, 23 including:
- 24 (i) Coordinating and providing services for children and families 25 with the greatest need through centers located in the neediest communities; and
- 26 (ii) Expanding access to high-quality, full-day prekindergarten 27 programs for 3-year-olds and 4-year-olds through a mixed delivery system;
- 28 (2) High–quality diverse teachers and school leaders in every school, 29 requiring:
- 30 (i) Elevation of the teaching profession to a profession comparable to other fields, with comparable compensation, that require a similar amount of education and credentialing with career ladders that allow the advancement of teachers and principals based on knowledge, skills, performance, and responsibilities;

1 2 3 4 5	(ii) Teacher preparation programs in the State's postsecondary institutions that are rigorous and prepare teacher candidates to have the knowledge, skills, and competencies needed to improve student performance and to teach all students successfully regardless of the student's economic background, race, ethnicity, and learning ability or disability; and
6 7 8 9	(iii) State exit standards from teacher preparation programs and State standards for teacher licensure that require prospective teachers to demonstrate that they have the knowledge, skills, and competencies to successfully teach students from all backgrounds;
10 11 12	(3) An instructional system that is benchmarked to world-class standards and fully aligned from prekindergarten through 12th grade to a college and career readiness standard, including:
13 14 15 16 17	(i) A college and career readiness standard set to world–class standards that certifies that by the end of 10th grade, and not later than the end of 12th grade, a student has the requisite literacy in English and mathematics to be successful in first–year, credit–bearing coursework at a Maryland community college or open enrollment postsecondary institution;
18 19	(ii) Pathways for students who achieve college and career readiness by the end of 10th grade to choose to pursue:
20	1. Highly competitive college preparatory programs;
