### ***Analysis by the Legislative Reference Bureau***

This bill authorizes the Department of Health Services to develop and implement a registry for power of attorney for health care instruments, declarations to physicians, do-not-resuscitate orders, authorizations for final disposition, and any other advance directives included by DHS. If DHS develops a registry, DHS may promulgate rules to implement the registry.

Also, if a registry is established, DHS may determine whether to incorporate advance directives previously filed with the county registers in probate. If DHS decides to incorporate these advance directives, DHS must request the documents from the registers in probate and the registers in probate must transfer a copy of the documents to DHS. If DHS requests copies of any previously filed advance directives, the registers in probate may not accept for filing new advance directives.

**ASSEMBLY BILL 83**

1 incorporation of advance directives is appropriate, the department shall request and  
2 the county registers in probate shall complete the transfer of a copy of any advance  
3 directives filed under s. 154.13 (1) or 155.65 (1) for inclusion by the department in  
4 the registry. The department shall notify the subject of the advance directive within  
5 14 days of the transfer of a copy of the advance directive and provide information  
6 regarding the registry and access to advance directives included in the registry.

7 (3) (a) Registration of a document or failure to register a document with a  
8 registry maintained by the department under this section does not affect the validity  
9 of the document. Failure to notify the department of the revocation of a document  
10 included on a registry under this section does not affect the validity of a revocation  
11 that otherwise meets the statutory requirements for revocation.

12 (b) The department is not required to review a document submitted for  
13 inclusion on a registry under this section to determine whether the document  
14 complies with statutory requirements applicable to that document.

15 (4) If an individual or a person authorized by that individual has submitted a  
16 copy of an advance directive to any registry established by the department under this  
17 section, the following persons may have access to that advance directive without first  
18 obtaining consent from the individual:

19 (a) The person authorized by the individual who is the subject of the advance  
20 directive.

21 (b) A health care provider who is providing care to the individual.

23 adjudication of incompetency and appointment of a guardian for the individual, for  
24 emergency detention under s. 51.15, for involuntary commitment under s. 51.20, or  
25 for protective placement or protective services under ch. 55.
