- 4 of title 10, United States Code.

5 DIVISION A—DEPARTMENT OF 6 DEFENSE AUTHORIZATIONS 7 TITLE I—PROCUREMENT 8 Subtitle A—Authorization Of 9 Appropriations

10 SEC. 101. AUTHORIZATION OF APPROPRIATIONS.

- 11 Funds are hereby authorized to be appropriated for fis-
- 12 cal year 2018 for procurement for the Army, the Navy and
- 13 the Marine Corps, the Air Force, and Defense-wide activi-
- 14 ties, as specified in the funding table in section 4101.

1	(4) A list of potential upgrades to WIN-T Incre-
2	ment 2 that may improve program capabilities, in-
3	cluding size, weight, and complexity, and the impact
4	of these improvements on the cost of the program.
5	(5) Options for fielding an Expeditionary Com-
6	mand Post capability that effectively integrates WIN-
7	T Increment 2 and command post infrastructure.
8	(6) A detailed plan for upgrading the existing
9	WIN-T Increment 1 system to the latest WIN-T Incre-
10	ment 2 configuration that includes—
11	(A) an estimate of the level of funding re-
12	quired to implement the plan; and
13	(B) the effect of the plan on the fielding of
14	mobile mission command to the reserve compo-
15	nents of the Army.
16	(7) Any other matters the Secretary determines
17	to be appropriate.
18	Subtitle C—Navy Programs
19	SEC. 121. AIRCRAFT CARRIERS.
20	(a) Sense of Congress on Increase in Number
21	OF OPERATIONAL AIRCRAFT CARRIERS.—
22	(1) FINDING8.—Congress finds the following:
23	(A) Aircraft carriers are an essential ele-
24	ment of the Navy's core missions of forward pres-
25	ence, sea control, ensuring safe sea lanes, and

	2.
1	power projection, and provide the flexibility and
2	versatility necessary for the execution of a wide
3	range of additional missions.
4	(B) Forward airpower is integral to the se-
5	curity and joint forces operations of the United
6	States. Carriers play a central role in delivering
7	forward airpower from sovereign territory of the
8	United States in both permissive and nonpermis-
9	sive environments.
10	(C) Aircraft carriers provide the Nation the
11	ability to rapidly and decisively respond to na-
12	tional threats, to conduct worldwide, on-station
13	diplomacy, and to deter threats to allies, part-
14	ners, and friends of the United States.
15	(D) Since the end of the cold war, aircraft
16	carrier deployments have increased while the air-
17	craft carrier force structure has declined.
18	(E) Due to the increased array of complex
19	threats across the globe, the Navy's aircraft car-
20	riers are operating at maximum capacity, in-
21	creasing deployment lengths and decreasing
22	maintenance periods in order to meet oper-
23	ational requirements.
24	(F) To meet global peacetime and wartime
25	requirements, the Navy has indicated a require-

1	ment to maintain two aircraft carriers deployed
2	overseas and to have three additional aircraft
3	carriers capable of deploying within 90 days.
4	However, the Navy has indicated that the exist-
5	ing aircraft carrier force structure cannot sup-
6	port these military requirements.
7	(G) Despite the requirement to maintain an
8	aircraft carrier strike group in both the United
9	States Central Command and the United States
10	Pacific Command, the Navy has been unable to
11	generate sufficient capacity to support combat-
12	ant commanders and has developed significant
13	carrier gaps in these critical areas.
14	(H) The continued use of a diminished air-
15	craft carrier force structure has resulted in exten-
16	sive maintenance availabilities which typically
17	exceed program costs and increase time in ship-
18	yards. These expansive maintenance availabil-
19	ities exacerbate existing carrier gaps.
20	(I) Because of maintenance overhaul exten-
21	sions, the Navy is truncating basic aircraft car-
22	rier training to expedite the deployment of avail-
23	able aircraft carriers. Limiting aircraft carrier
24	training decreases operational capabilities and
25	increases risks to sailors.

1	(J) Despite the objections of the Navy, the
2	Under Secretary of Defense for Acquisition,
3	Technology, and Logistics directed the Navy on
4	August 7, 2015, to perform shock trials on the
5	U.S.S. Gerald R. Ford (CVN–78). The Assistant
6	Deputy Chief of Naval Operations for Oper-
7	ations, Plans and Strategy indicated that this
8	action could delay the introduction of the U.S.S.
9	Gerald R. Ford (CVN-78) to the fleet by up to
10	two years, exacerbating existing carrier gaps.
11	(K) The Navy has adopted a two-phase ac-
12	quisition strategy for the U.S.S. John F. Ken-
13	nedy (CVN-79), an action that will delay the in-
14	troduction of this aircraft carrier by up to two
15	years, exacerbating existing carrier gaps.
16	(L) Developing an alternative design to the
17	Ford class aircraft carrier is not cost beneficial.
18	A smaller design is projected to incur significant
19	design and engineering cost while significantly
20	reducing magazine size, carrier air wing size,
21	sortie rate, and on-station effectiveness among
22	other vital factors as compared to the Ford class.
23	Furthermore, a new design will delay the intro-
24	duction of future aircraft carriers, exacerbating

1	existing carrier gaps and threatening the na-
2	tional security of the United States.
3	(M) The 2016 Navy Force Structure Assess-
4	ment states "A minimum of 12 aircraft carriers
5	are required to meet the increased warfighting
6	response requirements of the Defense Planning
7	Guidance Defeat/Deny force sizing direction."
8	Furthermore, a new National Defense Strategy is
9	being prepared that will assess the defeat/deny
10	force sizing direction and may increase the force
11	structure associated with aircraft carriers.
12	(2) Sense of congress.—It is the sense of
13	Congress that—
14	(A) the United States should expedite deliv-
15	ery of 12 aircraft carriers;
16	(B) an aircraft carrier should be authorized
17	every three years;
18	(C) shock trials should be conducted on the
19	U.S.S. John F. Kennedy (CVN–79), as initially
20	proposed by the Navy;
21	(D) construction for the U.S.S. John F.
22	Kennedy (CVN–79) should be accomplished in a
23	single phase; and

 (E) the United States should continue the Ford class design for the aircraft carrier des- ignated CVN-81. (b) INCREASE IN NUMBER OF OPERATIONAL AIRCRAFT CARRIERS.— (1) INCREASE.—Section 5062(b) of title 10, United States Code, is amended by striking "11 oper- ational aircraft carriers" and inserting "12 oper- ational aircraft carriers". (2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on September 30,
ignated CVN-81. (b) INCREASE IN NUMBER OF OPERATIONAL AIRCRAFT CARRIERS.— (1) INCREASE.—Section 5062(b) of title 10, United States Code, is amended by striking "11 oper- ational aircraft carriers" and inserting "12 oper- ational aircraft carriers". (2) EFFECTIVE DATE.—The amendment made by

(c) Shock Trials for CVN-78.—Section 128 of the
National Defense Authorization Act for Fiscal Year 2016
(Public Law 114–92; 129 Stat. 751) is amended—
(1) by striking subsections (a) and (b); and

1	Subtitle D—Air Force Programs
2	SEC. 131. STREAMLINING ACQUISITION OF INTERCONTI-
3	NENTAL BALLISTIC MISSILE SECURITY CAPA-
4	BILITY.
5	(a) FINDINGS.—Congress finds the following:
6	(1) On September 25, 2014, then Secretary of the
7	Air Force, Deborah Lee James, submitted a report to
8	Congress on the replacement strategy of the Air Force
9	for the UH-1N helicopter, which included the fol-
10	lowing information:
11	(A) On the age of the airframe: "The UH-
12	1N is a versatile utility helicopter that was ac-
13	cepted into service from 1968-1969.".
14	(B) On the ability to meet requirements:
15	"The entire fleet supports five general homeland
16	security missions The ability of the UH–1 N
17	to accomplish these missions was evaluated in
18	2006, and the aircraft was found to be 'not effec-
19	tive.' The shortcomings of the UH-1N were de-
20	rived from specific mission requirements for car-
21	rying capacity, airspeed, unrefueled endurance,
22	mission range, force protection for the floor, spe-
23	cific protection for all aircrew and passengers,
24	survivability, and materiel availability.".

- 1 (C) Regarding previous efforts to acquire a 2 replacement aircraft, the report identified efforts that date back to 2006, including— 3 4 (i) an initial analysis of alternatives by Air Force Space Command in 2006; 5 6 (ii) the common vertical lift support 7 platform program, which was cancelled in 8 2013; 9 (iii) two RAND corporation studies 10 funded in 2013; and 11 (iv) the then-current proposal of the 12 Air Force to procure modified Army UH-13 60 helicopters. 14 (2) On February 24, 2016, at a hearing before 15 the Committee on Armed Services of the House of 16 Representatives, in response to concerns related to lift, 17 capacity, and hover time of the UH-1N, then Com-18 mander of the United States Strategic Command, Ad-19 miral Cecil Haney stated: "Congressman, absolutely, 20 in terms of thinking very crisply associated with 21 what we need to do to improve security of our missile 22 fields. . . the attributes you listed are the attributes 23 that concern me in terms of the capability, not just
- 24 now, but into the future.".

1	(3) On March 2, 2016, at a hearing before the
2	Committee on Armed Services of the House of Rep-
3	resentatives, the Commander of Air Force Global
4	Strike Command, General Robin Rand stated: "We
5	will not meet the emergency security response with
6	the present helicopter.".
7	(4) On April 4, 2017, at a hearing before the
8	Committee on Armed Services of the Senate, the Com-
9	mander of the United States Strategic Command,
10	General John E. Hyten stated: "Of all the things in
11	my portfolio, I can't even describe how upset I get
12	about the helicopter replacement program. It's a heli-
13	copter, for gosh sakes. We ought to be able to go out
14	and buy a helicopter and put it in the hands of the
15	people that need it. And we should be able to do that
16	quickly. We've been building combat helicopters for a
17	long time in this country. I don't understand why the
18	heck it is so hard to buy a helicopter.".
19	(b) Sense of Congress.—It is the sense of Congress
20	that, based on the findings under subsection (a), the Sec-
21	retary of Defense should have the authority to expedite the

22 procurement of a replacement aircraft for the UH-1N heli-

23 copter.

1	(c) WAIVER AND CONTRACT AUTHORITY.—Subject to
2	subsection (d), in procuring a replacement aircraft for the

6	(2) enter into a contract for the procurement on
7	a sole-source basis.
8	(d) Notice and Certification.—Not later than 15
9	days before exercising the authority under subsection (c),
10	the Secretary shall submit to the congressional defense com-
11	mittees, in writing—
12	(1) notice of the intent of the Secretary to exer-
13	cise such authority; and
14	(2) a certification that—
15	(A) the Secretary has reviewed—
16	(i) the threshold requirements for the
17	UH-1N replacement aircraft program; and
18	(ii) any delays that may have occurred
19	while the Air Force pursued strategies for
20	the procurement of such aircraft on an other
21	than sole-source basis; and
22	(B) after conducting such review, the Sec-
23	retary has determined that entering into a con-
24	tract on a sole-source basis under subsection
25	(c)—

1 (i) is in the national security interests 2 of the United States; and 3 (ii) is necessary to ensure that a UH-4 1N replacement aircraft enters service by 5 not later than September 30, 2020. 6 SEC. 132. (a) FINDINGS.—Congress makes the following findings: (1) Secretary of Defense James Mattis has stated: "It is appropriate for the Combatant Commands to incorporate drivers of instability that impact the security environment in their areas into their plan-

1	as increased maritime access to the Arctic, rising sea
2	levels, desertification, among others — impact our se-
3	curity situation.".

4 (3) Chairman of the Joint Chiefs of Staff Joseph
5 Dunford has stated: "It's a question, once again, of
6 being forward deployed, forward engaged, and be in
7 a position to respond to the kinds of natural disasters
8 that I think we see as a second or third order effect
9 of climate change.".

(4) Former Secretary of Defense Robert Gates
has stated: "Over the next 20 years and more, certain
pressures-population, energy, climate, economic, environmental-could combine with rapid cultural, social,
and technological change to produce new sources of
deprivation, rage, and instability.".

16 (5) Former Chief of Staff of the U.S. Army Gor17 don Sullivan has stated: "Climate change is a na18 tional security issue. We found that climate insta19 bility will lead to instability in geopolitics and im20 pact American military operations around the
21 world.".

(6) The Office of the Director of National Intelligence (ODNI) has stated: "Many countries will encounter climate-induced disruptions—such as weather-related disasters, drought, famine, or damage to in-

1	frastructure—that stress their capacity to respond,
2	cope with, or adapt. Climate-related impacts will also
3	contribute to increased migration, which can be par-
4	ticularly disruptive if, for example, demand for food
5	and shelter outstrips the resources available to assist
6	those in need.".
7	(7) The Government Accountability Office (GAO)
8	has stated: "DOD links changes in precipitation pat-
9	terns with potential climate change impacts such as
10	changes in the number of consecutive days of high or
11	low precipitation as well as increases in the extent
12	and duration of droughts, with an associated increase
13	in the risk of wildfire this may result in mission
14	vulnerabilities such as reduced live-fire training due
15	to drought and increased wildfire risk.".
16	(8) A three-foot rise in sea levels will threaten
17	the operations of more than 128 United States mili-
18	tary sites, and it is possible that many of these at-
19	risk bases could be submerged in the coming years.
20	(9) As global temperatures rise, droughts and
21	famines can lead to more failed states, which are
22	breeding grounds of extremist and terrorist organiza-
23	tions.
24	(10) In the Marshall Islands, an Air Force radar
25	installation built on an atoll at a cost of

1	\$1,000,000,000	is	projected	to	be	underwater	within
2	two decades.						

3 (11) In the western United States, drought has
4 amplified the threat of wildfires, and floods have
5 damaged roads, runways, and buildings on military
6 bases.

7 (12) In the Arctic, the combination of melting
8 sea ice, thawing permafrost, and sea-level rise is erod9 ing shorelines, which is damaging radar and commu10 nication installations, runways, seawalls, and train11 ing areas.

(13) In the Yukon Training Area, units conducting artillery training accidentally started a wildfire despite observing the necessary practices during
red flag warning conditions.

(b) SENSE OF CONGRESS.—It is the sense of Congress
17 that—

(1) climate change is a direct threat to the national security of the United States and is impacting
stability in areas of the world both where the United
States Armed Forces are operating today, and where
strategic implications for future conflict exist;

(2) there are complexities in quantifying the cost
of climate change on mission resiliency, but the Department of Defense must ensure that it is prepared

1	to conduct operations both today and in the future
2	
	and that it is prepared to address the effects of a
3	changing climate on threat assessments, resources,
4	and readiness; and
5	(3) military installations must be able to effec-
6	tively prepare to mitigate climate damage in their
7	master planning and infrastructure planning and de-
8	sign, so that they might best consider the weather and
9	natural resources most pertinent to them.
10	(c) Report.—
11	(1) REPORT REQUIRED.—Not later than one
12	year after the date of the enactment of this Act, the
13	Secretary of Defense shall submit to the Committees
14	on Armed Services of the Senate and the House of
15	Representatives a report on vulnerabilities to military
16	installations and combatant commander requirements
17	resulting from climate change over the next 20 years.
18	(2) ELEMENTS.—The report on vulnerabilities to
19	military installations and combatant commander re-
20	quirements required by paragraph (1) shall include

7	Congress that the Department of Defense should dis-
8	courage the practice of substituting contractor per-
9	sonnel for available members of the Armed Forces
10	when a unit deploys overseas and should revise this

(a) FINDINGS.—Congress makes the following findings: (1) Following closure of the Department of the Navy ship repair facility in Guam in 1997 following the Base Realignment and Closure round of 1995, op- eration of the facility was turned over to a private company. (2) While streamlining operations, resulting in savings to the Navy of approximately \$38,000,000

ing capability that had existed in Apra Harbor since
 World War II.

3 (3) From 1997 to 2012, the private operator suc-4 cessfully performed 28 major overhauls with dry-5 dockings of Navy, Military Sealift Command, and 6 Coast Guard vessels, 27 mid-term availabilities, as 7 well as the emergency dry-docking of USS San Fran-8 cisco (SSN-711) after the nuclear powered submarine 9 collided with a seamount off the coast of Guam in 10 2005.

(4) While the privately owned dry-dock, Machinist, was undergoing upgrades and refurbishment in
2013, the Navy announced that it would split the
long-standing depot-level capability in Guam into
two pieces, awarding an initial contract for pier-side
ship repair, to be followed by a contract for dry-dock
ship repair.

(5) At this time, the Committee on Armed Services of the House of Representatives, including the
Delegate from Guam, as well as the Governor of
Guam, objected to this plan, and a conditional agreement was made wherein the Navy committed to restoring dry-docking capabilities expeditiously following issuance of the pier-side contract.

1	(6) Despite repeated requests from the Committee
2	on Armed Services of the House of Representatives,
3	the Delegate from Guam, and the Governor of Guam
4	over the past four years, the Secretary of the Navy
5	has failed to issue the dry-dock contract.
6	(7) The Navy conducted a business case analysis
7	to assess options for a dry-docking capability in
8	Guam in 2014 and agreed to provide a copy of the
9	report to Congress upon completion. The draft busi-
10	ness case analysis was provided to the Committee on
11	Armed Services of the House of Representatives on
12	March 3, 2016, but a final document was not pro-
13	duced.
14	(8) The draft business case analysis evaluated
15	200 potential options for restoring a dry-docking ca-
16	pability in Guam, recommending seven potential
17	

16pability in Guam, recommending seven potential17courses of action, with estimated costs ranging from18\$324,000,000 to \$398,000,000 over a 50-year life19cycle. The business case analysis concluded that any20of these options are significant savings when com-21pared with the cost of not having a dry-docking capa-22bility in Guam, which exceeds \$700,000,000 over a2350-year period.

24 (9) The Navy has removed machinery and equip25 ment needed to perform major overhauls from the

1	former ship repair facility, and shifted ship repair
2	work previously performed in Guam to various for-
3	eign locations in the Western Pacific. The total cost
4	of Navy ship repair contracts in Guam have gone
5	from \$45,00,000 in 2010 to \$16,000,000 in 2016.
6	(10) As a result of Navy actions over the past
7	five years, the number of skilled workers engaged in
8	ship repair in Guam has been reduced from a com-
9	bined total of approximately 550 at three ship-repair
10	companies in Guam to the current level of 150. Due
11	to this degraded workforce and equipment capabili-
12	ties, the Navy is now forced to rely almost exclusively
13	on foreign ship repair instead at a time when the
14	Committee believes tensions and threats of crisis in
15	the Western Pacific can put access to foreign ship-
16	yards at risk.
17	(11) Navy leadership has long acknowledged the
18	importance of a depot-level, dry-docking capability in
19	Guam, as evidenced by the following:
20	(A) "Robust depot-level ship repair capa-
21	bility in Guam is a matter of strategic impor-
22	tance and remains an operational necessity be-
23	cause ships of the 7th Fleet have high operational
24	tempo and experience vast distances between re-
25	pair facilities." (Letter from the Commander of

the Pacific Fleet to the Governor of Guam, dated February 15, 2013).

(B) "We must maintain a viable ship 3 4 maintenance capability in Guam to include dry-5 docking in support of operations and contin-6 gency plans (OPLANs and CONPLANs) and the 7 U.S. Navy rebalance to the Pacific. Guam is a 8 strategic in-theater location for depot-level ship 9 maintenance on sovereign U.S. territory. This is a significant factor given that commercial dry 10 11 docks available in foreign countries considered 12 friendly to the United States may become un-13 available to SEVENTH Fleet ships in time of 14 crisis or war. Availability of CPF ships would 15 be stressed if assets are required to dry dock in CONUS due to the non-availability of a secure 16 17 dry docking capability in the Western Pacific. 18 Dry-docking in Guam is a critical component of 19 depot-level ship repair. The capability must be 20 maintained and regularly exercised so that a ca-21 pability and expertise are available to support 22 ships of the SEVENTH Fleet in peace and war." 23 (Letter from the Commander of the Pacific Fleet 24 to the Chief of Naval Operations, dated February 25 7. 2014).

1

1	(C) On February 24, 2016, in testimony be-
2	fore the Committee on Armed Services of the
3	House of Representatives, Admiral Harry Har-
4	ris, Commander of the United States Pacific
5	Command, affirmed that he continues to view ro-
6	bust ship repair capabilities as a matter of stra-
7	tegic importance and an operational priority for
8	United States Pacific Fleet.
9	(12) The Navy currently has four fast-attack nu-
10	clear submarines homeported in Guam.
11	(13) The Navy homeports submarine squadrons
12	at seven locations in the United States, each of which
13	has a dry-docking capability, with the exception of
14	Guam.
15	(14) The Committee on Armed Services of the
16	House of Representatives believes that dry-docking ca-
17	pability in Guam is a strategic requirement and a
18	cost-effective means of ensuring the Forward Deployed
19	Fleet has depot-level repair capabilities at a United
20	States port in the Western Pacific.
21	(15) Amounts were authorized to be appro-
22	priated in the National Defense Authorization Act for
23	Fiscal Year 2017 (Public Law 114–328) and appro-
24	priated in the Consolidated Appropriations Act, 2017
25	(Public Law 115–31) for funds be applied to char-

3 (b) LIMITATION ON USE OF FUNDS.—Not more than 4 75 percent of the funds authorized to be appropriated or otherwise made available for the Office of the Secretary of 5 the Navy may be obligated or expended until the Secretary 6 submits to Congress notice that a request for proposals has 7 8 been issued to solicit bids for the chartering of a dry dock 9 in the Western Pacific that satisfies the minimum require-10 ments for heavy ship depot-level repair.

9	tives and the Committee on Armed Services of the
10	Senate a report on flyovers and the process whereby
11	flyover requests are made and evaluated, including—
12	(A) whether there is any cost to taxpayers
13	associated with flyovers;
14	(B) whether there is any appreciable public
15	relations or recruitment value that comes from
16	flyovers; and
17	(C) the impact flyovers have to aviator
18	training and readiness.
19	(d) FLYOVER DEFINED.—In this section, the term "fly-
20	over" means aviation support—
21	(1) in which a straight and level flight limited
22	to one pass by a single military aircraft, or by a sin-
23	gle formation of four or fewer military aircraft of the
24	same type, from the same military department over

a predetermined point on the ground at a specific
 time;

3 (2) that does not involve aerobatics or dem4 onstrations; and

5 (3) uses bank angles of up to 90 degrees if re6 quired to improve the spectator visibility of the air7 craft.

8 SEC. 1038. TRANSFER OF FUNDS TO WORLD WAR I CENTEN9 NIAL COMMISSION.

10 (a) AUTHORITY TO TRANSFER FUNDS.—The Secretary of Defense may transfer to the World War I Centennial 11 12 Commission, from amounts described in subsection (b), such amount as the Secretary and the Chair of the World War 13 I Centennial Commission consider appropriate to assist the 14 15 Commission in carrying out activities under paragraphs (2) through (5) of section 5(a) of the World War I Centen-16 nial Commission Act (Public Law 112–272; 36 U.S.C. prec. 17 101 note) after fiscal year 2017. 18

9	United States territory enabling the Nation to reduce
10	its dependency on other nations while it pursues its
11	national security interests.
12	(11) Aircraft carriers enable the United States
13	Armed Forces to carry out operations from inter-
14	national waters, avoiding the complications of secur-
15	ing fly-over rights and land-base rights from other
16	nations.
17	(12) Aircraft carriers are a modern, very mobile
18	United States military base complete with airfield,
19	hospital, and communications systems from which the
20	United States can strike at its enemies.
21	(13) Over 90 percent of world trade is moved by
22	sea, including much of the world's gas and oil supply,
23	and aircraft carriers and their strike forces are con-
24	stantly on patrol in vital regions of the world to keep

1	shipping lanes open and protect the interests of the
2	United States and its allies.
3	(14) There are more than 2,450 companies in 48
4	States and over 364 congressional districts, and more
5	than 13,100 shipbuilders who proudly contribute to
6	the construction and maintenance of these complex
7	and technologically advanced ships.
8	(15) Thousands of members of the United States
9	Armed Forces have served the Nation aboard aircraft
10	carriers in war, peace, and times of crisis.
11	(16) When crisis occurs the first question that
12	comes to everyone's lips is "Where is the nearest car-
13	rier?".
14	(b) Sense of Congress.—It is the sense of Congress
15	that—
16	(1) United States aircraft carriers are the pre-
17	eminent power projection platform and have served
18	the Nation's interests in times of war and in times
19	of peace, adapting to the immediate and ever-chang-
20	ing nature of the world for over 90 years;
21	(2) aircraft carrier contributions and heritage
22	should be celebrated; and
23	(3) the people of the United States should be en-
24	couraged to celebrate the history of aircraft carriers
25	in the United States and to always remember the

8	SEC. 1068. SENSE OF CONGRESS RECOGNIZING THE UNITED
9	STATES NAVY SEABEES.
10	(a) FINDINGS.—Congress makes the following findings:
11	(1) On March 5, 1942, Navy Construction Bat-
12	talion personnel were officially named Seabees by the
13	Navy Department.
14	(2) The purpose of the Navy Seabees is to build,
15	maintain, and support base infrastructure in remote
16	locations for the Navy and Marine Corps, while si-
17	multaneously being capable of engaging in combat op-
18	erations.
19	(3) The Navy Seabees dual-role is exemplified by
20	the Seabee motto Construimus, Batuimus: We Build,
21	We Fight.
22	(4) Throughout their history, the Navy Seabees
23	have answered the call of duty to protect the United
24	States and its democratic values both in times of war
25	and peace.

1	(5) The Navy Seabees support United States na-
2	tional security at combatant commands worldwide,
3	through the construction, both on land and under-
4	water, of bases, airfields, roads, bridges, and other in-
5	frastructure.
6	(6) Members of the Navy Seabees and their fami-
7	lies have demonstrated unmatched courage and dedi-
8	cation to sacrifice for the United States, from service
9	in World War II, Korea, and Vietnam to the recent
10	conflicts in Afghanistan, Iraq, and elsewhere.
11	(7) The Navy Seabees exhibit honor, personal
12	courage, and commitment as they sacrifice their per-
13	sonal comfort to keep the United States safe from
14	threats.
15	(8) The Navy Seabees continue to display
16	strength, professionalism, and bravery in the all-vol-
17	unteer force.
18	(b) SENSE OF CONGRESS.—Congress recognizes the
19	United States Navy Seabees and the Navy personnel who
20	comprise the construction force for the Navy and the Marine
21	Corps as critical elements in deterring conflict, overcoming
22	aggression, and rebuilding democratic institutions.
23	SEC. 1069. RECOGNITION OF THE UNITED STATES SPECIAL
24	OPERATIONS COMMAND.
25	(a) FINDINGS.—Congress makes the following findings:

1	(1) On April 16, 1987, Congress required the es-
2	tablishment of a Special Operations Command, which
3	was to be an elite fighting force drawn from all of the
4	branches of the Armed Forces.
5	(2) As a headquarters organization, USSOCOM
6	comprises four service-component commands, con-
7	sisting of the United States Army Special Operations
8	Command, United States Naval Special Warfare
9	Command, United States Marine Corps Forces Spe-
10	cial Operations Command, and United States Air
11	Force Special Operations Command, and includes
12	various sub-unified commands.
13	(3) Each service-component command has sub-
14	component commands consisting of—
15	(A) Army Special Forces (Green Berets),
16	Rangers, Special Operations Aviation, Civil Af-
17	fairs, Military Information Support Operations;
18	(B) Navy SEALS and Special Warfare
19	Combatant-Craft Crewmen;
20	(C) Air Force Commandos and Special Tac-
21	tics Airmen;
22	(D) Marine Raiders; and
23	(E) other Joint Special Operations Forces;
24	(4) USSOCOM protects and defends the United
25	States in a variety of ways, including direct action,

1	special reconnaissance, unconventional warfare, for-
2	eign internal defense, civil affairs operations, counter-
3	terrorism, military information support operations,
4	counter-proliferation of weapons of mass destruction,
5	security force assistance, counterinsurgency, hostage
6	rescue and recovery, foreign humanitarian assistance,
7	and other missions as assigned.
8	(5) USSOCOM has an unequaled ability to ana-
9	lyze and respond to terrorist threats and USSOCOM
10	has led many successful missions globally.
11	(6) Many USSOCOM missions are classified, so
12	the American people may never know the details and
13	extent of the bravery of Special Operations Forces,
14	but a sample of missions provide a glimpse into the
15	bravery and talents of these members of the Armed
16	Forces:
17	(A) On May 2, 2011, Osama bin Laden was
18	killed in a special operations mission in Paki-
19	stan, for which the outstanding men and women
20	in America's intelligence and Armed Forces, es-
21	pecially those from SOCOM, remained focused
22	on bringing Osama bin Laden to justice, and on
23	May 2, 2011, justice was done.
24	(B) On April 12, 2009, the Maersk Alabama
25	was rescued unharmed in a special operations

	434
1	mission in the Indian Ocean, after a five-day
2	standoff between the United States Navy and So-
3	malian pirates.
4	(C) On April 1, 2003, Jessica Lynch, a
5	United States Army clerk taken prisoner for
6	nine days in Iraq, was rescued by Special Oper-
7	ations Forces during a night raid in the hospital
8	where she was being held.
9	(D) On December 13, 2003, in Operation
10	Red Dawn, Special Operations Forces captured
11	deposed Iraqi president Saddam Hussein, who
12	was hiding in a spider hole.
13	(E) On January 17, 1991, as Operation
14	Desert Storm began, Special Operations Forces
15	slipped hundreds of miles into Iraq to identify
16	Iraqi Scud missiles as targets for American
17	fighter jets.
18	(F) On December 20, 1989, in Operation
19	Just Cause and Operation Nifty Package, Spe-
20	cial Operations Forces ventured into Panama to
21	bring its then President Manuel Noriega to jus-
22	tice for drug-trafficking.
23	(7) Approximately 70,000 Regular component,
24	National Guard, and reserve component personnel
25	from all four services and Department of Defense ci-

1	vilians are assigned to USSOCOM headquarters in
2	Tampa, its four service-component commands, and
3	eight sub-unified commands.
4	(8) The heroism, skill, and patriotism of
5	USSOCOM personnel and their families are without
6	parallel.
7	(9) The responsibilities of USSOCOM are grow-
8	ing and its mission is now and will continue to be
9	central to the defense of the United States in future
10	decades.
11	(10) The sacrifices of many, the service of all,
12	and the talents of the Special Operations Forces are
13	cause for confidence and optimism.
14	(b) Sense of Congress.—It is the sense of Congress
15	that the soldiers, sailors, airmen, Marines, and civilians
16	who, together with their family members, comprise the
17	United States Special Operations Forces community should
18	be honored for their service and commitment to keeping the
19	United States safe.
20	SEC. 1070. SENSE OF CONGRESS REGARDING WORLD WAR I.
21	(a) FINDINGS.—Congress makes the following findings:
22	(1) The United States declared war against Ger-
23	many on April 6, 1917, to redress wrongs, including
24	Germany's resumption of unrestricted submarine

1	warfare, violation of United States neutrality, and
2	denial of freedom of the seas to nonbelligerent nations.
3	(2) The United States associated itself with the
4	allied powers of the United Kingdom and its Com-
5	monwealth, France and its colonies, Russia, Italy,
6	and Japan to defeat the German Empire
7	(3) The United States Army, consisting of the
8	Regular Army, National Guard, and Reserve Corps,
9	with the addition of volunteers and the draftees of the
10	National Army, underwent a transformation from a
11	frontier constabulary and coastal defense force to a
12	modern land warfare force.
13	(4) Early 20th century military and techno-
14	logical advances resulted in the incorporation of
15	motor transport, aviation, anti-aircraft artillery,
16	tanks, chemical weapons, aircraft carriers, sub-
17	marines and anti-submarine warfare, sonar, under-
18	water mines, and other innovations into the military
19	arsenal of the United States.
20	(5) The need to quickly build a military strength
21	of four million soldiers and half a million sailors re-
22	quired the mobilization of the human resources of the
23	United States, during which members of diverse eth-
24	nic groups, races, and creeds, both native-born and
25	immigrant, forged a new American identity.

1	(6) The United States Army maintained its de-
2	fense of American seacoasts, southern border, and
3	overseas possessions, while the Army American Expe-
4	ditionary Forces deployed "Over There" for combat
5	operations in Europe starting in June 1917.
6	(7) By the end of World War I, almost two mil-
7	lion members of the Army served overseas in the
8	American Expeditionary Forces; Whereas, during
9	World War I, the United States Navy increased in
10	strength from approximately 69,000 officers and sail-
11	ors and 342 vessels to more than 533,000 officers and
12	sailors and 774 vessels.
13	(8) The Navy operated in the Atlantic and Pa-
14	cific Oceans, and the North and Mediterranean Seas
15	in cooperation with allied navies.
16	(9) The Navy began the fight against the Ger-
17	man U-boat menace by dispatching destroyers, which
18	eventually totaled 70 in number, and 169 other vessels
19	to counter the submarine threat.
20	(10) Navy vessels escorted troop transports car-
21	rying 1,250,000 passengers and escorted supply trans-
22	ports carrying 27 percent of all cargo shipped to Eu-
23	rope.
24	(11) The Navy deployed five batteries of large-
25	caliber battleship guns mounted on railroad trains to

1	France fo	r service	as	long-range	artillery	for	the
2	Army;.						

3	(12) The United States Coast Guard transferred
4	to the operational control of the Navy, and augmented
5	that service with approximately 5,000 officers and
6	sailors, 47 vessels of all types, and 279 shore stations;.
7	(13) The United States Marine Corps, with an
8	eventual wartime strength of 75,000 officers and men,
9	detached two regiments and a machine gun battalion
10	to constitute an infantry brigade integrated into the
11	Army's 2d Division for service in France;.
12	(14) On July 4, 1917, Colonel Charles E. Stan-
13	ton, one of the officers on the staff of General John
14	Pershing, commander of the American Expeditionary
15	Forces in Europe, famously announced America's
16	commitment to the fight when Colonel Stanton pro-
17	claimed upon his arrival in France, "Lafayette, we
18	are here!".
19	(15) Whereas the American Expeditionary
20	Forces formed three field armies, nine corps and
21	forty-three divisions, plus various units of the Serv-
22	ices of Supply.

23 (16) The American Expeditionary Forces suf24 fered 244,000 casualties in fighting in thirteen named
25 campaigns in World War I;.

1	(17) Participation in World War I resulted in
2	the completion of a period of reform and profes-
3	sionalism that transformed the Armed Forces from a
4	small dispersed organization to a modern industri-
5	alized fighting force capable of global reach and influ-
6	ence.
7	(b) Sense of Congress.—Congress—
8	(1) honors the memory of the fallen heroes who
9	wore the uniform of the United States Armed Forces
10	during World War I;
11	(2) commends the Unites States Armed Forces
12	for preserving and protecting the interests of the
13	United States during World War I;
14	(3) commends the brave members of the United
15	States Armed Forces for their efforts in "making the
16	world safe for democracy," and preserving the found-
17	ing principles of the United States at home and
18	abroad during World War I;
19	(4) commends the brave members of the United
20	States Armed Forces for preserving and protecting the
21	sea lanes of commerce and communications during
22	World War I that ensured the continued prosperity of
23	the United States;
24	(5) celebrates and congratulates the United
25	States Army, Navy, Marine Corps, Air Force, and

1	Coast Guard during the commemoration of the cen-
2	tennial of World War I for a job well done; and
3	(6) calls on all people of the United States to
4	join in the commemoration of the centennial of World
5	War I in events throughout the United States and
6	overseas.
7	SEC. 1071. FINDINGS AND SENSE OF CONGRESS REGARD-
8	ING THE NATIONAL GUARD YOUTH CHAL-
9	LENGE PROGRAM.
10	(a) FINDINGS.—Congress finds the following:
11	(1) Fewer than 30 percent of youth in the United
12	States qualify for military service, either because of
13	poor physical health, a criminal record, or lack of a
14	high school degree.
15	(2) The National Guard Youth Challenge Pro-
16	gram provides the Department of Defense an oppor-
17	tunity to work with State and local governments to
18	engage with the youth of the nation, providing mili-
19	tary-based training, the opportunity to earn a high
20	school degree, and high physical fitness standards.
21	(b) Sense of Congress.—It is the sense of Congress
22	that it is critical to allocate the necessary resources to the
23	National Guard Youth Challenge Program of the Depart-
24	ment of Defense as it plays a critical role in preparing the
25	next generation of qualified youth for military service.

1	SEC. 1072. SENSE OF CONGRESS REGARDING NATIONAL
2	PURPLE HEART RECOGNITION DAY.
3	(a) FINDINGS.—Congress finds the following:
4	(1) On August 7, 1782, during the Revolutionary
5	War, General George Washington established what is
6	now known as the Purple Heart medal when he
7	issued an order establishing the Badge of Military

8 Merit.

9 (2) The Badge of Military Merit was designed in
10 the shape of a heart in purple cloth or silk.

(3) While the award of the Badge of Military
Merit ceased with the end of the Revolutionary War,
the Purple Heart medal was authorized in 1932 as
the official successor decoration to the Badge of Military Merit.

16 (4) The Purple Heart medal is the oldest United
17 States military decoration in present use.

(5) The Purple Heart medal is awarded in the
name of the President of the United States to recognize members of the Armed Forces who are killed or
wounded in action against an enemy of the United
States or are killed or wounded while held as prisoners of war.

- 24 (b) SENSE OF CONGRESS.—Congress—
- 25 (1) supports the goals and ideals of National
 26 Purple Heart Recognition Day; and
 - •HR 2810 RH

1	(2) encourages all people of the United States—
2	(A) to learn about the history of the Purple
3	Heart medal;
4	(B) to honor recipients of the Purple Heart
5	medal; and
6	(C) to conduct appropriate ceremonies, ac-
7	tivities, and programs to demonstrate support
8	for people who have been awarded the Purple
9	Heart medal.

 16 THE GOVERNMENT OF IRAN.

of conventional warfare, cyber and information operations,
intelligence operations, and other activities to undermine
United States national security interests.

(b) SENSE OF CONGRESS.—It is the sense of Congress
that—

24 (1) the United States should counter the malign

1	(2) the United States should maintain a capable
2	military presence in the Arabian Gulf region to deter,
3	and, if necessary, respond to Iranian aggression;
4	(3) the United States should strengthen ballistic
5	missile defense capabilities;
6	(4) the United States should ensure freedom of
7	navigation at the Bab al Mandab strait and the
8	Strait of Hormuz; and
9	(5) the United States should counter Iranian ef-
10	forts to illicitly proliferate weapons, including cruise
11	and ballistic missiles.

18	Act for Fiscal Year 2017 (Public Law 114–328; 130 Stat.
19	2488) is amended by striking "fiscal year 2017" and insert-
20	ing "fiscal year 2018".
21	SEC. 1232. PROHIBITION ON AVAILABILITY OF FUNDS RE-

24	(a) Prohibition.—None of the funds authorized to be

16 SEC. 1233. STATEMENT OF POLICY ON THE RUSSIAN FED-

17 ERATION.

(a) FINDINGS.—Congress makes the following findings:
(1) The Russian Federation, under the leadership of President Vladimir Putin, continues to demonstrate its malign activities to expand its sphere of
influence and undermine international norms and institutions both regionally and globally, including
through the following activities:

1	(A) An assessment of the United States in-
2	telligence community stated "Russian Presi-
3	dent Vladimir Putin ordered an influence cam-
4	paign in 2016 aimed at the U.S. presidential
5	election", presented in the intelligence commu-
6	nity's January 6, 2017, declassified report, "As-
7	sessing Russian Activities and Intentions in Re-
8	cent U.S. Elections".
9	(B) The Russian Federation has interfered
10	in the April 2017 election and runoff election in
11	May 2017 of the French Presidential elections.
12	As confirmed by Admiral Mike Rogers, Director
13	of the National Security Agency, at a Senate
14	Committee on Armed Services hearing on May 9,
15	2017, "If you look at the French elections
16	we had become aware of Russian activity."
17	(C) The Russian Federation has threatened
18	stability in their sphere of influence. As stated
19	by General Curtis M. Scaparrotti, Commander
20	of the United States European Command, in tes-
21	timony at a House Committee on Armed Serv-
22	ices hearing on March 28, 2017, "In the east, a
23	resurgent Russia has turned from partner to an-
24	tagonist. Countries along Russia's periphery, es-
25	pecially Ukraine and Georgia, are under threat

1	from Moscow's malign influence and military
2	aggression.".
3	(D) The Russian Federation has occupied
4	and attempted to annex Crimea from Ukraine.
5	(E) The Russian Federation has employed
6	hybrid warfare tactics, including cyber warfare,
7	electronic warfare, and information warfare to
8	gain influence. This includes the use of hybrid
9	tactics in assisting combined Russian-separatist
10	forces in eastern Ukraine and, in 2008, the Rus-
11	sian incursion in Georgia.
12	(F) Military intervention in the civil war
13	in Syria.
14	(2) Both the Secretary of Defense, James Mattis,
15	and the Chairman of the Joint Chiefs of Staff, Gen-
16	eral Joseph Dunford, highlight the Russian Federa-
17	tion as the number one geo-strategic threat to the
18	United States.
19	(3) The Government of the Russian Federation
20	continues its decades' long modernization of its con-
21	ventional military force with the buildup of large
22	numbers of professionalized forces on Russia's borders
23	with Europe, re-establishing military presence in the
24	Arctic, investment in its nuclear triad, advanced
25	weapons systems, fighter jets, and naval vessels.

1	(4) In June 2016, the Center for Strategic and
2	International Studies released its report, "Evaluating
3	U.S. Army Force Posture in Europe: Phase II",
4	which included the recommendation that an Armed
5	Brigade Combat Team and a combat aviation brigade
6	should be permanently assigned to Europe. The report
7	also recommends additional prepositioned equipment
8	in Western Europe.
9	(5) In January 2016, the National Commission
10	on the Future of the Army released its findings and
11	recommendations, which included Recommendation
12	14, calling for permanently stationing an Armored
13	Brigade Combat Team Forward in Europe and Rec-
14	ommendation 15 calling for the conversion of Army
15	Europe Aviation Headquarters to a warfighting mis-
16	sion command.
17	(6) In the National Defense Authorization Act
18	for Fiscal Year 2015 (Public Law 113–291), the Na-
19	tional Defense Authorization Act for Fiscal Year 2016
20	(Public Law 114–92), and the National Defense Au-
21	thorization Act for Fiscal Year 2017 (Public Law
22	114–328), Congress authorized approximately
23	\$5,200,000 for the European Reassurance Initiative,
24	now the European Deterrence Initiative, to reassure

1	partners and allies and begin building a credible de-
2	terrence to the Russian Federation through—
3	(A) large increases in conventional re-
4	sources, including additional rotational deploy-
5	ments of United States troops and
6	prepositioning of equipment into Europe; and
7	(B) increased funding for unconventional
8	warfare resources, including cyber and special
9	operations forces, and for intelligence and indi-
10	cators and warnings.
11	(b) Statement of Policy.—
12	(1) IN GENERAL.—It is the policy of the United
13	States to develop, implement, and sustain credible de-
14	terrence against aggression by the Government of the
15	Russian Federation, in order to enhance regional and
16	global security and stability.
17	(2) Conduct of Policy.—The policy described
18	in paragraph (1) shall, among other things, be car-
19	ried out through a comprehensive defense strategy and
20	guidance to outline and resource the necessary defense
21	capabilities in the European theater. Such policy
22	shall include the following:
23	(A) Increased United States presence in Eu-
24	rope through additional permanently stationed
25	forces.

1	(B) Continued United States presence in
2	Europe through additional rotational forces.
3	(C) Increased United States prepositioned
4	military equipment to include logistics enablers
5	and a division headquarters.
6	(D) Sufficient and necessary infrastructure
7	additions and improvements throughout the Eu-
8	ropean theater.
9	(E) Increased investment and priority to
10	counter unconventional methods of warfare, in-
11	cluding sufficient cyber warfare resources, infor-
12	mation operations resources, and intelligence re-
13	sources.
14	(F) Effective security cooperation resources
15	and opportunities with partners and allies, in-
16	cluding NATO member countries.
17	SEC. 1234. MODIFICATION AND EXTENSION OF UKRAINE SE-
18	CURITY ASSISTANCE INITIATIVE.
19	Section 1250 of the National Defense Authorization
20	Act for Fiscal Year 2016 (Public Law 114–92; 129 Stat.
21	1068), as amended by section 1237 of the National Defense
22	Authorization Act for Fiscal Year 2017 (Public Law 114–
23	328; 130 Stat. 2494), is further amended—

1	(A) in paragraph (1), by striking
2	"\$175,000,000 of the funds available for fiscal
3	year 2017 pursuant to subsection $(f)(2)$ " and in-
4	serting "\$75,000,000 of the funds available for
5	fiscal year 2018 pursuant to subsection $(f)(3)$ ";
6	and
7	(B) in paragraph (3)—
8	(i) by striking "fiscal year 2017" and
9	inserting "fiscal year 2018"; and
10	(ii) by striking "\$100,000,000" and
11	inserting "\$50,000,000";
12	(2) in subsection (f), by adding at the end the
13	following:
14	"(3) For fiscal year 2018, \$150,000,000."; and
15	(3) in subsection (h), by striking "December 31,
16	2018" and inserting "December 31, 2019".
17	SEC. 1235. LIMITATION ON AVAILABILITY OF FUNDS RELAT-
18	ING TO IMPLEMENTATION OF THE OPEN
19	SKIES TREATY.
20	(a) Limitation on Conduct of Flights.—
21	(1) IN GENERAL.—None of the funds authorized
22	to be appropriated by this Act or otherwise made
23	available for any fiscal year after fiscal year 2017 for
24	the Department of Defense for operation and mainte-
25	nance, Defense-wide, or operation and maintenance,

Air Force, may be obligated or expended to conduct
 any flight during such fiscal year for purposes of im plementing the Open Skies Treaty until the date that
 is seven days after the date on which the President
 submits to the appropriate congressional committees a
 plan described in paragraph (2) with respect to such
 fiscal year.

8 (2) PLAN DESCRIBED.—The plan described in 9 this paragraph is a plan developed by the Secretary 10 of Defense, in coordination with the Secretary of 11 State, the Chairman of the Joint Chiefs of Staff, and 12 the Director of National Intelligence, that contains a 13 description of the objectives for all planned flights de-14 scribed in paragraph (1) during such fiscal year.

15 (3) UPDATE.—To the extent necessary and ap-16 propriate, the Secretary of Defense, in coordination 17 with the Secretary of State, the Chairman of the 18 Joint Chiefs of Staff, and the Director of National In-19 telligence, may update the plan described in para-20 graph (2) with respect to a fiscal year and submit the 21 updated plan to the appropriate congressional com-22 mittees.

23 (4) APPROPRIATE CONGRESSIONAL COMMITTEES
24 DEFINED.—In this section, the term "appropriate
25 congressional committees" means—

1	(A) the congressional defense committees;
2	and
3	(B) the Select Committee on Intelligence
4	and Committee on Foreign Relations of the Sen-
5	ate and the Permanent Select Committee on In-
6	telligence and the Committee on Foreign Affairs
7	of the House of Representatives.
8	(5) SUNSET.—The requirements of this sub-
9	section shall terminate on the date that is five years
10	after the date of the enactment of this Act.
11	(b) Prohibition on Activities to Modify United
12	States Aircraft.—None of the funds authorized to be ap-
13	propriated by this Act or otherwise made available for fiscal
14	year 2018 for research, development, test, and evaluation,
15	Air Force, for arms control implementation (PE 0305145F)
16	or procurement, Air Force, for digital visual imaging sys-
17	tem (BA-05, Line Item #1900) may be obligated or ex-
18	pended to carry out any activities to modify any United
19	States aircraft for purposes of implementing the Open Skies
20	Treaty.
21	(c) OPEN SKIES TREATY DEFINED.—In this section,
\mathbf{a}	

21 (c) OTEN SKIES TREATT DEFINED.—In this section,
22 the term "Open Skies Treaty" means the Treaty on Open
23 Skies, done at Helsinki March 24, 1992, and entered into
24 force January 1, 2002.

1	SEC. 1236. SENSE OF CONGRESS ON IMPORTANCE OF NU-
2	CLEAR CAPABILITIES OF NATO.
3	(a) FINDINGS.—Congress finds the following:
4	(1) The Warsaw Summit Communique, issued
5	on July 9, 2016, by the North Atlantic Treaty Orga-
6	nization (in this section referred to as "NATO")
7	clearly defines the need for, and the importance of, the
8	nuclear mission of NATO.
9	(2) The Warsaw Summit Communique states—
10	(A) with respect to the nuclear deterrence
11	capability of NATO, "As a means to prevent
12	conflict and war, credible deterrence and defence
13	is essential. Therefore, deterrence and defence,
14	based on an appropriate mix of nuclear, conven-
15	tional, and missile defence capabilities, remains
16	a core element of our overall strategy The
17	fundamental purpose of NATO's nuclear capa-
18	bility is to preserve peace, prevent coercion, and
19	deter aggression. Nuclear weapons are unique.
20	Any employment of nuclear weapons against
21	NATO would fundamentally alter the nature of
22	a conflict. The circumstances in which NATO
23	might have to use nuclear weapons are extremely
24	remote";
25	(B) with respect to the nature of the nuclear
26	deterrence posture of NATO, "NATO must con-

1

6

7

8

tinue to adapt its strategy in line with trends in the security environment-including with respect to capabilities and other measures required-to ensure that NATO's overall deterrence and defence posture is capable of addressing potential adversaries' doctrine and capabilities, and that it remains credible, flexible, resilient, and adaptable."; and

9 (C) with respect to the importance of con-10 tributions to the nuclear deterrence mission from 11 across the NATO alliance, "The strategic forces 12 of the Alliance, particularly those of the United 13 States, are the supreme guarantee of the security 14 of the Allies. The independent strategic nuclear 15 forces of the United Kingdom and France have 16 a deterrent role of their own and contribute to 17 the overall security of the Alliance. These Allies' 18 separate centres of decision-making contribute to 19 deterrence by complicating the calculations of 20 potential adversaries. NATO's nuclear deterrence 21 posture also relies, in part, on United States' 22 nuclear weapons forward-deployed in Europe 23 and on capabilities and infrastructure provided 24 by Allies concerned. These Allies will ensure that 25 all components of NATO's nuclear deterrent re-

1	main safe, secure, and effective. That requires
2	sustained leadership focus and institutional ex-
3	cellence for the nuclear deterrence mission and
4	planning guidance aligned with 21st century re-
5	quirements. The Alliance will ensure the broadest
6	possible participation of Allies concerned in their
7	agreed nuclear burden-sharing arrangements.".
8	(3) Secretary of Defense James Mattis, in re-
9	sponse to the advance policy questions for his Senate
10	confirmation hearing on January 12, 2017, stated
11	that—
12	(A) "NATO's nuclear deterrence posture re-
13	lies in part on U.S. nuclear weapons forward-de-
14	ployed in Europe and on capabilities and infra-
15	structure provided by NATO allies. These capa-
16	bilities include dual-capable aircraft that con-
17	tribute to current burden-sharing arrangements
18	within NATO. In general, we must take care to
19	maintain this particular capability, and to mod-
20	ernize it appropriately and in a timely fash-
21	ion."; and
22	(B) the role of the nuclear weapons of the
23	United States is "to deter nuclear war and to
24	serve as last resort weapons of self-defense. In
25	this sense, U.S. nuclear weapons are funda-

1	mental to our nation's security and have histori-
2	cally provided a deterrent against aggression
3	and security assurance to U.S. allies. A robust,
4	flexible, and survivable U.S. nuclear arsenal un-
5	derpins the U.S. ability to deploy conventional
6	forces worldwide.".
7	(4) On March 28, 2017, General Curtis
8	Scaparrotti, Commander of the United States Euro-
9	pean Command and the Supreme Allied Commander,
10	Europe, testified to the Committee on Armed Services
11	of the House of Representatives that "NATO and U.S.
12	nuclear forces continue to be a vital component of our
13	deterrence. Our modernization efforts are crucial; we
14	must preserve a ready, credible, and safe nuclear ca-
15	pability.".
16	(5) The Russian Federation is currently under-
17	going significant modernization and recapitalization
18	of all three legs of its nuclear triad, continues to field
19	and modernize a large variety of non-strategic nu-
20	clear weapons, and is developing and deploying new
21	and unique nuclear capabilities.
22	(6) Russia remains in violation of the INF Trea-
23	ty due to the development, testing, and, most recently,
24	the operational deployment of ground-launched cruise
25	missiles in violation of the INF Treaty.

1 (7) On March 28, 2017, General Paul Selva, 2 Vice Chairman of the Joint Chiefs of Staff, described 3 the security consequences of the deployment of such 4 INF Treaty-violating missiles, testifying to the Com-5 mittee on Armed Services of the House of Representatives that "our assessment of the impact is that it 6 7 more threatens NATO and infrastructure within the 8 European continent than any other...area of the world that we have national interests in or alliance interests 9 in.". 10

11 (8)March 28, 2017. General Curtis On 12 Scaparrotti, in testimony before the Committee on 13 Armed Services of the House of Representatives, re-14 sponded to a question asking if Russia intends to re-15 turn to compliance with the INF Treaty by stating, 16 "I don't have any indication that they will at this 17 time.".

18 (9) Rhetoric from Russian officials has dem-19 onstrated that Moscow has sought to leverage its nu-20 clear arsenal to threaten and intimidate neighboring 21 countries, including members of NATO, as was the 22 case when the Russian Ambassador to Denmark stat-23 ed, "Danish warships will be targets for Russian nu-24 clear missiles" in response to Denmark's potential co-25 operation in the NATO missile defense system.

1 (b) SENSE OF CONGRESS.—It is the sense of Congress 2 that—

3 (1) the nuclear and conventional deterrence ca4 pabilities of NATO are of critical importance to the
5 security of the United States and of the NATO alli6 ance, and must continue to adapt to the changed se7 curity environment in Europe;

8 (2) the ability of the United States to forward-9 deploy dual-capable aircraft and nuclear weapons, 10 and of select members of NATO to participate in the 11 nuclear deterrence mission of NATO by hosting for-12 ward-deployed nuclear weapons of the United States 13 or operating dual-capable aircraft, is central to the 14 credibility of the nuclear deterrence and defense pos-15 ture of NATO;

(3) the strategic forces of the United States, the
independent nuclear forces of the United Kingdom
and the French Republic, and the dual-capable aircraft operated by the United States and other members of NATO constitute foundational elements of the
nuclear deterrence and defense posture of NATO;

(4) NATO should modernize its nuclear-related
infrastructure to ensure the highest-level of safety and
security;

1	(5) effective deterrence requires NATO to conduct
2	nuclear planning and exercises aligned with 21st cen-
3	tury requirements and modernize nuclear-related ca-
4	pabilities and infrastructure, including dual-capable
5	aircraft, command and control networks, and facili-
6	ties; and
7	(6) to ensure the continued credibility of the de-
8	terrence and defense posture of NATO, the planned
9	completion of F -35 A aircraft development and test-
10	ing, as well as the delivery of such aircraft to mem-
11	bers of NATO, must not be delayed.
12	(c) INF TREATY DEFINED.—In this section, the term
13	"INF Treaty" means the Treaty Between the United States
14	of America and the Union of Soviet Socialist Republics on
15	the Elimination of Their Intermediate-Range and Shorter-
16	Range Missiles, commonly referred to as the "Intermediate-
17	Range Nuclear Forces (INF) Treaty", signed at Washington
18	December 8, 1987, and entered into force June 1, 1988.
19	SEC. 1237. SENSE OF CONGRESS ON SUPPORT FOR GEOR-
20	GIA.
21	(a) FINDINGS.—Congress finds the following:
22	(1) Georgia is a valued friend of the United
23	States and has repeatedly demonstrated its commit-
24	ment to advancing the mutual interests of both coun-
25	tries, including the deployment of Georgian forces as

1	part of the NATO-led International Security Assist-
2	ance Force (ISAF) in Afghanistan and the Multi-Na-
3	tional Force in Iraq.
4	(2) The European Deterrence Initiative builds
5	the partnership capacity of Georgia so it can work
6	more closely with the United States and NATO, as
7	well as provide for its own defense.
8	(3) In addition to the European Deterrence Ini-
9	tiative, Georgia's participation in the NATO initia-
10	tive Partnership for Peace is paramount to interoper-
11	ability with the United States and NATO, and estab-
12	lishing a more peaceful environment in the region.
13	(4) Despite the losses suffered, as a NATO part-
14	ner of ISAF, Georgia is engaged in the Resolute Sup-
15	port Mission in Afghanistan with the second largest
16	contingent on the ground.
17	(b) Sense of Congress.—Congress—
18	(1) reaffirms United States support for Georgia's
19	sovereignty and territorial integrity within its inter-
20	nationally-recognized borders, and does not recognize
21	the independence of the Abkhazia and South Ossetia
22	regions currently occupied by the Russian Federation;
23	and
24	(2) supports continued cooperation between the
25	United States and Georgia and the efforts of the Gov-

1	ernment of Georgia to provide for the defense of its
2	people and sovereign territory.
3	SEC. 1238. SENSE OF CONGRESS ON SUPPORT FOR ESTO-
4	NIA, LATVIA, AND LITHUANIA.
5	(a) FINDINGS.—Congress finds the following:
6	(1) The Baltic States of Estonia, Latvia, and
7	Lithuania are highly valued allies of the United
8	States, and they have repeatedly demonstrated their
9	commitment to advancing our mutual interests as
10	well as those of the NATO Alliance.
11	(2) Operation Atlantic Resolve is a series of exer-
12	cises and coordinating efforts demonstrating the
13	United States' commitment to its European partners
14	and allies, including the Baltic States of Estonia,
15	Latvia, and Lithuania, with the shared goal of peace
16	and stability in the region. Operation Atlantic Re-
17	solve strengthens communication and understanding,
18	and is an important effort to deter Russian aggres-
19	sion in the region.
20	(3) Through Operation Atlantic Resolve, the Eu-
21	ropean Deterrence Initiative undertakes exercises,
22	training, and rotational presence necessary to reas-
23	sure and integrate our allies, including the Baltic
24	States, into a common defense framework.

1	(4) All three Baltic States contributed to the
2	NATO-led International Security Assistance Force in
3	Afghanistan, sending disproportionate numbers of
4	troops and operating with few caveats. The Baltic
5	States continue to engage in Operation Resolute Sup-
6	port in Afghanistan.
7	(b) Sense of Congress.—Congress—
8	(1) reaffirms its support for the principle of col-
9	lective defense in Article 5 of the North Atlantic Trea-
10	ty for our NATO allies, including Estonia, Latvia,
11	and Lithuania;
12	(2) supports the sovereignty, independence, terri-
13	torial integrity, and inviolability of Estonia, Latvia,
14	and Lithuania as well as their internationally recog-
15	nized borders, and expresses concerns over increas-
16	ingly aggressive military maneuvering by the Russian
17	Federation near their borders and airspace;
18	(3) expresses concern over and condemns subver-
19	sive and destabilizing activities by the Russian Fed-
20	eration within the Baltic States; and
21	(4) encourages the Administration to further en-
22	hance defense cooperation efforts with Estonia, Lat-
23	via, and Lithuania and supports the efforts of their
24	Governments to provide for the defense of their people
25	and sovereign territory.

4 SEC. 1241. SHORT TITLE.

5 This subtitle may be cited as the "Intermediate-Range
6 Nuclear Forces (INF) Treaty Preservation Act of 2017".

7 SEC. 1242. FINDINGS.

8 Congress makes the following findings:

9 (1) The 2014, 2015, and 2016 Department of 10 State reports entitled, "Adherence to and Compliance 11 with Arms Control, Nonproliferation, and Disar-12 mament Agreements and Commitments", all stated 13 that the United States has determined that "the Rus-14 sian Federation is in violation of its obligations 15 under the INF Treaty not to possess, produce, or 16 flight-test a ground-launched cruise missile (GLCM) 17 with a range capability of 500 km to 5,500 km, or 18 to possess or produce launchers of such missiles".

19 (2) The 2016 report also noted that "the cruise
20 missile developed by Russia meets the INF Treaty def21 inition of a ground-launched cruise missile with a
22 range capability of 500 km to 5,500 km, and as such,
23 all missiles of that type, and all launchers of the type
24 used or tested to launch such a missile, are prohibited
25 under the provisions of the INF Treaty".

1	(3) Potential consistency and compliance con-
2	cerns regarding the INF Treaty noncompliant GLCM
3	have existed since 2008, were not officially raised
4	with the Russian Federation until 2013, and were not
5	briefed to the North Atlantic Treaty Organization
6	(NATO) until January 2014.
7	(4) The United States Government is aware of
8	other consistency and compliance concerns regarding
9	Russia actions vis-à-vis its INF Treaty obligations.
10	(5) Since 2013, senior United States officials, in-
11	cluding the President, the Secretary of State, and the
12	Chairman of the Joint Chiefs of Staff, have raised
13	Russian noncompliance with the INF Treaty to their
14	counterparts, but no progress has been made in bring-
15	ing the Russian Federation back into compliance
16	with the INF Treaty.
17	(6) In April 2014, General Breedlove, the Su-
18	preme Allied Commander Europe, correctly stated, "A
19	weapon capability that violates the INF, that is in-
20	troduced into the greater European land mass, is ab-
21	solutely a tool that will have to be dealt with It
22	can't go unanswered.".
23	(7) The Department of Defense in its September
24	2013 report, Report on Conventional Prompt Global
25	Strike Options if Exempt from the Restrictions of the

1	Intermediate-Range Nuclear Forces Treaty Between
2	the United States of America and the Union of Soviet
3	Socialist Republics, stated that it has multiple vali-
4	dated military requirement gaps due to the prohibi-
5	tions imposed on the United States as a result of its
6	compliance with the INF Treaty.
7	(8) It is not in the national security interests of
8	the United States to be unilaterally legally prohibited
9	from developing dual-capable ground-launched cruise
10	missiles with ranges between 500 and 5,500 kilo-
11	meters, while Russia makes advances in developing
12	and fielding this class of weapon systems, and such
13	unilateral limitation cannot be allowed to continue
14	indefinitely.
15	(9) Admiral Harry Harris, Jr., Commander of
16	the United States Pacific Command, testified before
17	the Senate Armed Services Committee on April 27,
18	2017, that "[W]e're in a multi-polar world where we
19	have a lot of countries who are developing these weap-
20	ons, including China, that I worry about. And I
21	worry about their DF-21 and DF-26 missile pro-
22	grams, their anti-carrier ballistic missile programs, if
23	you will. INF doesn't address missiles launched from
24	ships or airplanes, but it focuses on those land-based
25	systems. I think there's goodness in the INF treaty,

anything you can do to limit nuclear weapons writ-
large is generally good. But the aspects of the INF
Treaty that limit our ability to counter Chinese and
other countries' land-based missiles, I think, is prob-
lematic.".
(10) A material breach of the INF Treaty by the
Russian Federation affords the United States the
right to invoke legal countermeasures which include
suspension of the treaty in whole or in part.
(11) Article XV of the INF Treaty provides that
"Each Party shall, in exercising its national sov-
ereignty, have the right to withdraw from this Treaty
if it decides that extraordinary events related to the
subject matter of this Treaty have jeopardized its su-
preme interests.".
SEC. 1243. COMPLIANCE ENFORCEMENT REGARDING RUS-
SIAN VIOLATIONS OF THE INF TREATY.
(a) Statement of United States Policy.—It is the
policy of the United States as follows:
(1) The actions undertaken by the Russian Fed-
$eration \ in \ violation \ of \ the \ INF \ Treaty \ constitute \ a$
material breach of the treaty.
(2) In light of the Russian Federation's material
breach of the INF Treaty, the United States is legally

1	in whole or in part for so long as the Russian Federa-
2	tion continues to be in material breach.
3	(3) For so long as the Russian Federation re-
4	mains in noncompliance with the INF Treaty, the
5	United States should take actions to encourage the
6	Russian Federation return to compliance, including
7	by—
8	(A) providing additional funds for the ca-
9	pabilities identified in section 1243(d) of the Na-
10	tional Defense Authorization Act for Fiscal Year
11	2016 (Public Law 114–92; 129 Stat. 1062); and
12	(B) seeking additional missile defense assets
13	in the European theater to protect United States
14	and NATO forces from ground-launched missile
15	systems of the Russian Federation that are in
16	noncompliance with the INF Treaty.
17	(b) AUTHORIZATION OF ADDITIONAL APPROPRIA-
18	TIONS.—
19	(1) IN GENERAL.—Of the funds authorized to be
20	appropriated by this Act for fiscal year 2018 for re-
21	search, development, test, and evaluation, as specified
22	in the funding table in division D, \$50,000,000 shall

1	(A) the development of active defenses to
2	counter ground-launched missile systems with
3	ranges between 500 and 5,500 kilometers;
4	(B) counterforce capabilities to prevent at-
5	tacks from these missiles; and
6	(C) countervailing strike capabilities to en-
7	hance the capabilities of the United States iden-
8	tified in section 1243(d) of the National Defense
9	Authorization Act for Fiscal Year 2016 (Public
10	Law 114–92; 129 Stat. 1062).
11	(2) Development.—Of the amount authorized
12	to be appropriated by paragraph (1), \$25,000,000 is
13	authorized to be appropriated for activities under-
14	taken to carry out section 1244(a), including with re-
15	spect to research and development activities.
16	SEC. 1244. DEVELOPMENT OF INF RANGE GROUND-
17	LAUNCHED MISSILE SYSTEM.
18	(a) Establishment of a Program of Record.—
19	The Secretary of Defense shall establish a program of record
20	to develop a conventional road-mobile ground-launched
21	cruise missile system with a range of between 500 to 5,500
22	kilometers.
23	(b) REPORT.—Not later than 120 days after the date
24	of the enactment of this Act, the Secretary of Defense shall

25 submit to the congressional defense committees, the Com-

mittee on Foreign Affairs of the House of Representatives, 1 2 and the Committee on Foreign Relations of the Senate a 3 report on the cost, schedule, and feasibility to modify exist-4 ing and planned missile systems, including the tomahawk 5 land attack cruise missile, the standard missile-3, the standard missile-6, and Army tactical missile system missiles for 6 7 ground launch with a range of between 500 and 5,500 kilo-8 meters in order to provide any of the capabilities identified in section 1243(d) of the National Defense Authorization 9 Act for Fiscal Year 2016 (Public Law 114-92; 129 Stat. 10 11 1062).

12 SEC. 1245. NOTIFICATION REQUIREMENT RELATED TO RUS-

13SIAN FEDERATION DEVELOPMENT OF NON-14COMPLIANT SYSTEMS AND UNITED STATES15ACTIONS REGARDING MATERIAL BREACH OF16INF TREATY BY THE RUSSIAN FEDERATION.

(a) DECLARATION OF POLICY.—Congress declares that
because of the Russian Federation's violations of the INF
Treaty, including the flight-test, production, and possession
of prohibited systems, its actions have defeated the object
and purpose of the INF Treaty, and thus constitute a material breach of the INF Treaty.

23 (b) NOTIFICTION BY DIRECTOR OF NATIONAL INTEL24 LIGENCE.—

1 (1) IN GENERAL.—The Director of National In-2 telligence shall notify the appropriate congressional 3 committees of any development, deployment, or test of 4 a system by the Russian Federation that the Director determines is inconsistent with the INF Treaty. 5 6 (2) DEADLINE.—A notification under this sub-7 section shall be made not later than 15 days after the 8 date on which the Director makes the determination 9 under this subsection with respect to which the notifi-10 cation is required. 11 (c) REPORT BY PRESIDENT.—Not later than 15 12 months after the date of the enactment of this Act, the President shall submit to the appropriate congressional commit-13 tees a report that contains a determination of the President 14 15 of whether the Russian Federation has flight-tested, produced, or is in possession of a ground-launched cruise mis-16 sile or ground-launched ballistic missile with a range of be-17 tween 500 and 5,500 kilometers during each of the three 18 consecutive 120-day periods beginning on the date of the 19

20 enactment of this Act.

(d) UNITED STATES ACTIONS.—If the determination
of the President contained in the report required to be submitted under subsection (c) is that the Russian Federation
has flight-tested, produced, or is in possession of any missile
described in subsection (c) during each of the periods de-

scribed in subsection (c), the prohibitions set forth in Article
 VI of the INF Treaty shall no longer be binding on the
 United States as a matter of United States law.

4 SEC. 1246. LIMITATION ON AVAILABILITY OF FUNDS TO EX5 TEND THE IMPLEMENTATION OF THE NEW
6 START TREATY.

7 None of the funds authorized to be appropriated or oth-8 erwise made available for fiscal year 2018 for the Depart-9 ment of Defense may be obligated or expended to extend the implementation of the New START Treaty unless the Presi-10 dent certifies to the appropriate congressional committees 11 that the Russian Federation has verifiably eliminated all 12 missiles that are in violation of or may be inconsistent with 13 the INF Treaty. 14

15 SEC. 1247. REVIEW OF RS-26 BALLISTIC MISSILE.

(a) IN GENERAL.—The President, in consultation with
the Secretary of State, the Secretary of Defense, the Chairman of the Joint Chiefs of Staff, and the Director of National Intelligence, shall conduct a review of the RS–26 ballistic missile of the Russian Federation.

(b) REPORT REQUIRED.—Not later than 90 days after
the date of the enactment of this Act, the President, in consultation with the Secretary of State, the Secretary of Defense, the Chairman of the Joint Chiefs of Staff, and the
Director of National Intelligence, shall submit to the appro-

ducted under subsection (a). The report shall include— 2 3 (1) a determination whether the RS-26 ballistic 4 missile is covered under the New START Treaty or would be a violation of the INF Treaty because Rus-5 6 sia has flight-tested such missile to ranges covered by the INF Treaty in more than one warhead configura-7 8 tion; and 9 (2) if the President determines that the RS-2610 ballistic missile is covered under the New START 11 Treaty, a determination whether the Russian Federa-

12 tion—

1

(A) has agreed through the Bilateral Consultative Commission that such a system is limited under the New START Treaty central limits; and

17 (B) has agreed to an exhibition of such a18 system.

(c) EFFECT OF DETERMINATION.—If the President,
with the concurrence of the Secretary of State, the Secretary
of Defense, the Chairman of the Joint Chiefs of Staff, and
the Director of National Intelligence, determines that the
RS-26 ballistic missile is covered under the New START
Treaty and that the Russian Federation has not taken the
steps described under subsection (b)(2), the United States

1	Government shall consider for purposes of all policies and
2	decisions that the $RS-26$ ballistic missile of the Russian
3	Federation is a violation of the INF Treaty.
4	SEC. 1248. DEFINITIONS.

6	(1) APPROPRIATE CONGRESSIONAL COMMIT-
7	TEES.—The term "appropriate congressional commit-
8	tees" means—

14	telligence, the Committee on Foreign Affairs, the
15	Committee on Armed Services, and the Com-
16	mittee on Appropriations of the House of Rep-
17	resentatives.
18	(2) INF TREATY.—The term "INF Treaty"

- 14 Subtitle F—Fostering Unity Against
- 15 Russian Aggression Act of 2017

16 SEC. 1251. SHORT TITLE.

17 This subtitle may be cited as the "Fostering Unity18 Against Russian Aggression Act of 2017".

19 SEC. 1252. FINDINGS AND SENSE OF CONGRESS.

- 20 (a) FINDINGS.—Congress finds the following:
- 21 (1) General Curtis M. Scaparrotti, Commander
- 22 of the United States European Command, testified be-
- 23 fore the House Armed Services Committee on March
- 24 27, 2017, that "Today we face the most dynamic Eu-
- 25 ropean security environment in history." and that

"Russia's malign actions are supported by its diplo matic, information, economic, and military initia tives.".

4 (2)The Russian Federation has shifted to a 5 military doctrine that envisions using nuclear weap-6 ons in an attempt to end a failing regional conven-7 tional conflict. On June 25, 2015, Deputy Secretary 8 of Defense Robert Work and then-Vice-Chairman of 9 the Joint Chiefs of Staff Admiral James Winnefeld 10 testified before the House Armed Services Committee 11 that "Russian military doctrine includes what some 12 have called an 'escalate to de-escalate' strategy—a 13 strategy that purportedly seeks to deescalate a conven-14 tional conflict through coercive threats, including lim-15 ited nuclear use. We think that this label is dan-16 gerously misleading. Anyone who thinks they can con-17 trol escalation through the use of nuclear weapons is 18 literally playing with fire. Escalation is escalation, 19 and nuclear use would be the ultimate escalation.".

20 (3) General Scaparrotti noted in his March 27,
21 2017, testimony before the House Armed Services
22 Committee that "Moscow's provocative rhetoric and
23 nuclear threats increase the likelihood of misunder24 standing and miscalculation.".

1 (4) The Russian Federation continues to conduct 2 ongoing influence campaigns aimed at undermining democracies around the world. According to an assess-3 4 ment by the intelligence community, "Russian President Vladimir Putin ordered an influence campaign 5 6 in 2016 aimed at the U.S. presidential election", 7 which included the use of the Russian military intel-8 ligence organization. The intelligence community also 9 assessed that Russia would apply lessons learned to 10 future influence efforts worldwide, including against 11 United States allies and their election systems. 12 (5) The Russian Federation continues its aggres-

12 (b) The Hussian Federation continues its aggres
13 sion on its periphery. In 2008, the Russian Federa14 tion fomented conflict in Georgia. Further, the Rus15 sian Federation is directing combined Russian-Sepa16 ratist units in eastern Ukraine, actively inciting vio17 lence and prolonging the most significant conflict in
18 Europe.

(6) The investment of over \$5 billion in the European Reassurance Initiative (ERI), now the European Deterrence Initiative (EDI), has proven successful in significantly enhancing the ability of United
States forces, NATO allies, and regional partners to
deter Russian aggression. EDI has not only assured
our European allies and partners but supported es-

1	sential investments in NATO's military capacity,
2	interoperability, and agility.
3	(b) Sense of Congress.—It is the sense of Congress
4	that—
5	(1) the risks of miscalculation in a crisis are ex-
6	acerbated by the Russian Federation's shift to a mili-
7	tary doctrine of "escalate to de-escalate", lowering the
8	threshold for Russian use of nuclear weapons and
9	thereby increasing the risk of using nuclear weapons,
10	potentially escalating in to a massive nuclear ex-
11	change;
12	(2) subversive and destabilizing activities by the
13	Russian Federation targeting NATO allies and part-
14	ners causes concern and should be condemned;
15	(3) European Deterrence Initiative (EDI) invest-
16	ments are long-term and, as such, Congress expects
17	future budgets to reflect United States commitment by
18	planning for funding in the base budget, and further
19	EDI should build on United States presence by in-
20	creasing the United States permanent force posture;
21	and
22	(4) credible deterrence requires steadfast coopera-
23	tion and joint action with NATO allies and partners
24	and other United States allies and partners in Eu-

rope.

2 SIAN FEDERATION.

3 (a) STRATEGY REQUIRED.—The Secretary of Defense,

22	tional ground forces;

24	forces;

1	(vi) the role of United States air forces;
2	and
3	(vii) the role of United States special
4	operations forces.
5	(I) An assessment of the force requirements
6	needed to implement and sustain the strategy.
7	(J) A description of the logistical require-
8	ments needed to implement and sustain the
9	strategy.

17	requirements needed to implement and sustain
18	the strategy through December 31, 2030.
19	(N) A discussion of how the strategy pro-
20	vides a framework for future planning and in-
21	vestments in regional defense initiatives, includ-
22	ing the European Deterrence Initiative.
23	(3) FORM.—The report required by this sub-
24	section shall be submitted in unclassified form but
25	may contain a classified annex.

1	SEC. 1254. STRATEGY TO INCREASE CONVENTIONAL PRECI-
2	SION STRIKE WEAPON STOCKPILES IN THE
3	UNITED STATES EUROPEAN COMMAND'S
4	AREAS OF RESPONSIBILITY.
5	(a) Strategy Required.—
6	(1) IN GENERAL.—The Secretary of Defense, in
7	coordination with the Secretary of State, shall develop
8	and implement a strategy to increase conventional
9	precision strike weapon stockpiles in the United
10	States European Command's areas of responsibility.

11 (2) ELEMENTS.—The strategy required by this 12 subsection shall include necessary increases in the 13 quantities of such stockpiles that the Secretary deter-14 mines will enhance deterrence and warfighting capa-15 bility of the North Atlantic Treaty Organization 16 forces.

17 (b) REPORT REQUIRED.—

18 (1) IN GENERAL.—Not later than April 1, 2018, 19 the Secretary of Defense shall submit to the appro-20 priate congressional committees a report on the strat-21 egy required by subsection (a).

22 (2) FORM.—The report required by this sub-23 section shall be submitted in unclassified form but 24 may contain a classified annex.

1	SEC. 1255. PLAN TO COUNTER THE MILITARY CAPABILITIES
2	OF THE RUSSIAN FEDERATION.
3	(a) Plan Required.—
4	(1) IN GENERAL.—The Secretary of Defense shall
5	develop and implement a plan to counter the military
6	capabilities of the Russian Federation.
7	(2) ELEMENTS.—The plan required by this sub-
8	section shall include the following:
9	(A) Accelerating programs to improve the
10	capability of United States military forces to op-
11	erate in a Global Positioning System (GPS)-de-
12	nied or GPS-degraded environment.
13	(B) Accelerating programs of the Depart-
14	ment of the Army to counter Russian unmanned
15	aircraft systems, electronic warfare, and long-
16	range precision strike capabilities.
17	(C) Countering unconventional capabilities
18	and hybrid threats from the Russian Federation.
19	(D) Any other elements that the Secretary
20	determines to be appropriate.
21	(b) Report Required.—
22	(1) IN GENERAL.—Not later than April 1, 2018,
23	the Secretary of Defense shall submit to the appro-
24	priate congressional committees a report on the plan
25	required by subsection (a).

(2) FORM.—The report required by this sub section shall be submitted in unclassified form but
 may contain a classified annex.

4 (c) SENSE OF CONGRESS.—It is the sense of Congress 5 that concerns persist over the growing sophistication of unconventional and hybrid state-sponsored threats by the Rus-6 sian Federation as demonstrated through its advancement 7 8 and integration of conventional warfare, economic warfare, 9 cyber and information operations, intelligence operations, and other activities to undermine United States national 10 11 security objectives.

12SEC. 1256. PLAN TO INCREASE CYBER AND INFORMATION13OPERATIONS, DETERRENCE, AND DEFENSE.

(a) PLAN.—The Secretary of Defense and the Secretary
of State shall jointly develop a plan to—

16 (1) increase inclusion of regional cyber planning
17 within larger United States joint planning exercises

and other European allies and partners of the United
 States.

3 (b) BRIEFING.—Not later than 180 days after the date
4 of the enactment of this Act, the Secretary of Defense shall
5 provide to the appropriate congressional committees a brief6 ing on the plan required under subsection (a).

7 SEC. 1257. SENSE OF CONGRESS ON ENHANCING MARITIME 8 CAPABILITIES.

9 Congress notes the 2016 Force Structure Assessment 10 (FSA) that increased the requirement for fast attack sub-11 marine (SSN) from 48 to 66 and supports an acquisition 12 plan that enhances maritime capabilities that address this 13 requirement.

14 SEC. 1258. PLAN TO REDUCE THE RISKS OF MISCALCULA-

15TION AND UNINTENDED CONSEQUENCES16THAT COULD PRECIPITATE A NUCLEAR WAR.

17 (a) FINDINGS.—Congress finds that—

(1) the Russian Federation has adopted a dangerous nuclear doctrine that includes a strategy of
"escalate to de-escalate", which could lower the threshold for Russian use of nuclear weapons in a regional
conflict; and

23 (2) such nuclear doctrine exacerbates the risks of
24 miscalculation and unintended consequences that
25 could precipitate a nuclear war.

1 (b) PLAN REQUIRED.—

2	(1) IN GENERAL.—Not later than March 1, 2018,
3	the Secretary of Defense, in coordination with the
4	Chairman of the Joint Chief of Staff, the Commander
5	of the United States Strategic Command, and the
6	Commander of the United States European Com-
7	mand, shall submit to the congressional defense com-
8	mittees a plan that includes options to reduce the risk
9	of miscalculation and unintended consequences that
10	could precipitate a nuclear war.
11	(2) ELEMENTS.—The plan required under this
12	subsection shall include—
13	(A) an assessment of the value of military-
14	to-military dialog to reduce such risk; and
15	(B) any other recommendations the Sec-
16	retary determines to be appropriate.

19	(1) APPROPRIATE CONGRESSIONAL COMMIT-
20	TEES.—The term "appropriate congressional commit-
21	tees" means—
22	(A) the congressional defense committees;
23	and

	919
1	(B) the Committee on Foreign Relations of
2	the Senate and the Committee on Foreign Affairs
3	of the House of Representatives.
4	(2) NATO.—The term "NATO" means the North
5	Atlantic Treaty Organization.
6	Subtitle G—Matters Relating to the
7	Indo-Asia-Pacific Region
8	SEC. 1261. SENSE OF CONGRESS ON THE INDO-ASIA-PA-
9	CIFIC REGION.
10	It is the sense of Congress that—
11	(1) the security, stability, and prosperity of the
12	Indo-Asia-Pacific region are vital to the national in-
13	terests of the United States;
14	(2) the United States should maintain a mili-
15	tary capability in the region that is able to project
16	power, deter acts of aggression, and respond, if nec-
17	essary, to regional threats;
18	(3) continuing efforts by the Department of De-
19	fense to realign forces, commit additional assets, and
20	increase investments to the Indo-Asia-Pacific region
21	are necessary to maintain a robust United States
22	commitment to the region;
23	(4) the Secretary of Defense should—
24	(A) assess the current United States force
25	posture in the Indo-Asia-Pacific region to ensure

1	that the United States maintains an appropriate
2	forward presence in the region;
3	(B) invest in critical munitions, undersea
4	warfare capabilities, amphibious capabilities, re-
5	silient space architectures, missile defense, offen-

25 quired that the Missile Defense Agency plan to

1 provide additional ballistic missile defense sensor 2 coverage for the defense of Hawaii and "field 3 such radar or equivalent sensor by not later than 4 December 31, 2021". (G) When asked at a hearing of the Com-5 6 mittee on Armed Services of the House of Representatives on April 26, 2017, about the threat 7 to Hawaii from North Korean ballistic missiles, 8 9 the Commander of the United States Pacific Command, Admiral Harry Harris, testified that 10 11 "Kim Jong-un is clearly in a position to threat-12 en Hawaii today. . .I believe that our ballistic 13 missile (defense) architecture is sufficient to pro-14 tect Hawaii today. But it can be overwhelmed" 15 and "I think that we would be better served, my 16 personal opinion, is that we would be better 17 served with a defensive Hawaii radar and inter-18 ceptors in Hawaii. I know that is being dis-19 cussed".

20 (2) SENSE OF CONGRESS.—It is the sense of
21 Congress that Congress supports assessing the feasi22 bility of improving the missile defense of Hawaii
23 from the evolving ballistic missile threat, including
24 from North Korea, through a permanent missile de-

fense sensor capability and the possible introduction
 of interim missile defense coverage.

3 (b) SEQUENCED APPROACH.—The Secretary of Defense 4 shall protect the test and training operations of the Pacific 5 Missile Range Facility, and assess the siting and functionality of a discrimination radar for homeland de-6 7 fense throughout the Hawaiian Islands before assessing the 8 feasibility of improving the missile defense of Hawaii by 9 using existing missile defense assets that could materially 10 improve the defense of Hawaii.

11 (c) TEST.—The Director of the Missile Defense Agency
12 shall—

(1) not later than 270 days after the date of the
enactment of this Act, conduct a test to evaluate and
demonstrate, if technologically feasible, the capability
to defeat a simple intercontinental ballistic missile
threat using the standard missile 3 block IIA missile
interceptor; and

(2) as part of the integrated master test plan for
the ballistic missile defense system, develop a plan to
demonstrate a capability to defeat a complex intercontinental ballistic missile threat, including a complex threat posed by the intercontinental ballistic missiles of North Korea.

1	(d) REPORT.—Not later than 120 days after the date
2	of the enactment of this Act, the Secretary of Defense shall
3	submit to the congressional defense committees a report—
4	(1) that indicates whether demonstrating an
5	intercontinental ballistic missile defense capability
6	against North Korean ballistic missiles by the stand-
7	ard missile 3 block IIA missile interceptor poses any
8	risks to strategic stability; and

11	tegic stability, a description of any plan developed

14	the space-based missile defense sensor layer;
15	(3) a space-based missile defense sensor layer is
16	essential for the future of the missile defense of the
17	homeland, the deployed members of the Armed Forces,
18	and the allies of the United States; and
19	(4) such a space-based layer can, and should,
20	benefit a multitude of other important defense and in-

9	space-based sensor layer can contribute that other sen-
10	sor layers do not contribute;
11	(4) how the Director will leverage the use of na-
12	tional technical means, commercially available space
13	and terrestrial capabilities, hosted payloads, small
14	satellites, and other capabilities to carry out sub-
15	section (b); and

8 SEC. 3111. NUCLEAR SECURITY ENTERPRISE INFRASTRUC-

9 TURE RECAPITALIZATION AND REPAIR. 10 (a) FINDINGS.—Congress finds the following:

(1) On September 7, 2016, during testimony before the Subcommittee on Strategic Forces of the Committee on Armed Services of the House of Representatives—

15 (A) the Administrator for Nuclear Security,
16 Frank Klotz, said—

17 (i) "Our infrastructure is extensive, 18 complex, and, in many critical areas, sev-19 eral decades old. More than half of NNSA's 20 approximately 6,000 real property assets 21 are over 40 years old, and nearly 30 percent 22 date back to the Manhattan Project era. 23 Many of the enterprise's critical utility, 24 safety, and support systems are failing at 25 an increasing and unpredictable rate, which

1	poses both programmatic and safety risk.";
2	and
3	(ii) "I can think of no greater threat
4	to the nuclear security enterprise than the
5	state of NNSA's infrastructure.";
6	(B) the President and Chief Executive Offi-
7	cer of Consolidated Nuclear Security, Morgan
8	Smith, said, "Many key facilities at both
9	[Pantex and Y-12] were constructed in the 1940s
10	and were intended to operate for as little as one
11	decade. Many facilities and their supporting in-
12	frastructure have exceeded or far exceeded their
13	expected life, and major systems within the fa-
14	cilities are beginning to fail."; and
15	(C) the Director of Los Alamos National
16	Laboratory, Dr. Charlie McMillan, said, "One of
17	the things that keeps me up at night is the real-
18	ization that essential capabilities are held at risk
19	by the possibility of such failures; in many cases,
20	our enterprise has a single point of failure.".
21	(2) In a letter sent on December 23, 2015, by the
22	Secretary of Energy, Ernest Moniz, to the Director of
23	the Office of Management and Budget, Shaun Dono-
24	van, the Secretary said, "A majority of the National
25	Nuclear Security Administration's (NNSA) facilities

and systems are well beyond end-of-life. . . Infra-1 2 structure problems such as falling ceilings are in-3 creasing in frequency and severity, unacceptably risk-4 ing the safety and security of both personnel and ma-5 terial at NNSA facilities, as well as in some in-6 stances, potential offsite risks. The entire complex 7 could be placed at risk if there is a single failure where a single point would disrupt a critical link in 8 infrastructure.". 9 10 (3) The Nuclear Posture Review published in 11 April 2010 stated that "In order to sustain a safe, se-12 cure, and effective U.S. nuclear stockpile as long as 13 nuclear weapons exist, the United States must possess

14 a modern physical infrastructure. . . Today's nuclear 15 complex, however, has fallen into neglect. Although 16 substantial science, technology, and engineering in-17 vestments were made over the last decade under the 18 auspices of the Stockpile Stewardship Program, the 19 complex still includes many oversized and costly-to 20 maintain facilities built during the 1940s and 1950s. 21 Some facilities needed for working with plutonium 22 and uranium date back to the Manhattan Project. 23 Safety, security, and environmental issues associated 24 with these aging facilities are mounting, as are the 25 costs of addressing them.".

1	(4) In 2009, the bipartisan Congressional Com-
2	mission on the Strategic Posture of the United States
3	established by section 1062 of the National Defense
4	Authorization for Fiscal Year 2008 (Public Law 110–
5	181; 122 Stat. 319) stated, with regards to key pro-
6	duction facilities, that "existing facilities are genu-
7	inely decrepit and are maintained in a safe and se-
8	cure manner only at high cost".
9	(5) Previous efforts to address the deferred main-
10	tenance and repair challenges within the nuclear se-
11	curity enterprise, such as the Facilities Infrastructure
12	and Recapitalization Program and the recent halt in
13	the growth of backlog metrics, are laudable but insuf-
14	ficient for the magnitude of the problem.
15	(6) Recent figures provided by the Administrator
16	for Nuclear Security estimate the backlog of deferred
17	maintenance and repair needs of the nuclear security
18	enterprise to be approximately \$3,700,000,000.
19	(b) Facilities and Infrastructure Recapitaliza-
20	tion and Repair Program.—
21	(1) Establishment.—Not later than 30 days
22	after the date of the enactment of this Act, the Admin-
23	istrator for Nuclear Security shall establish and carry
24	out a program known as the Facilities and Infra-
25	

1	duce the backlog of deferred maintenance and repair
2	needs of the nuclear security enterprise (as defined in
3	section 4002(6) of the Atomic Energy Defense Act (50
4	U.S.C. 2501(6)). The Administrator shall ensure that,
5	by not later than five years after the date of the en-
6	actment of this Act, the program achieves the goal of
7	reducing such backlog of deferred maintenance and
8	repair needs by 50 percent.
9	(2) Authorities.—
10	(A) Process.—
11	(i) IN GENERAL.—The Secretary of
12	Energy shall provide to the Administrator a
13	process that will enhance or streamline the
14	ability of the Administrator to carry out the
15	program under paragraph (1) in an effi-
16	cient and effective manner, including with
17	respect to—
18	(I) the demolition or construction
19	of non-nuclear facilities of the Admin-
20	istration that have a total estimated
21	project cost of less than \$100,000,000;
22	and
23	(II) the decontamination, decom-

15	Nuclear Security Administration Act (50 U.S.C.
16	22441a).
17	(2) MATTERS INCLUDED.—The analysis under
18	paragraph (1) shall include assessments of—
19	(A) the number of Federal employees within
20	each program of the Administration, and wheth-
21	er such numbers are appropriately balanced with
22	respect to the size, scope, functions, budgets, and
23	risks, of the program; and
24	(B) the number of Senior Executive Service
25	positions within the Administration, including a

1	comparison of such number to other comparable
2	departments and agencies of the Federal Govern-

14	(ii) subsection (b); and
15	(B) the Director for Cost Estimating and
16	Program Evaluation shall provide to such com-
17	mittees a briefing on the analysis under sub-
18	section (c).
19	(2) Appropriate congressional committees
20	DEFINED.—In this subsection, the term "appropriate
21	congressional committees" means—
22	(A) the Committees on Armed Services of
23	the House of Representatives and the Senate;
24	(B) the Committee on Energy and Com-
25	merce of the House of Representatives;

	010
1	(C) the Committee on Energy and Natural
2	Resources of the Senate; and
3	(D) the Committee on Oversight and Gov-
4	ernment Reform of the House of Representatives.
5	SEC. 3119. DISPOSITION OF WEAPONS-USABLE PLUTONIUM.
6	(a) IN GENERAL.—Subject to subsection (b), the Sec-
7	retary of Energy shall carry out construction and project
8	support activities relating to the MOX facility using funds
9	authorized to be appropriated by this Act or otherwise made
10	available for fiscal year 2018 for the National Nuclear Se-
11	curity Administration for the MOX facility for construction
12	and project support activities.
13	(b) WAIVER.—The Secretary of Energy may waive the
14	requirement in subsection (a) if the Secretary submits to
15	the Committees on Armed Services of the House of Rep-
16	resentatives and the Senate the following:
17	(1) The matters required by section $3116(b)(3)$ of
18	the National Defense Authorization Act for Fiscal
19	Year 2017 (Public Law 114–328; 130 Stat. 2761).
20	(2) Notification that the Secretary has sought to
21	enter into consultations with any relevant State nec-
22	essary to pursue an alternative option for carrying
23	out the plutonium disposition program.
24	(3) Notification that the Secretary has been un-
25	able to enter into a fixed-price contract with the

1	prime contractor of the MOX facility (for construction
2	and project support activities under subsection (a))
3	that the Secretary determines sufficiently minimizes
4	risk and cost to the Department of Energy.
5	(4) Certification that—
6	(A) an alternative option for carrying out
7	the plutonium disposition program exists;
8	(B) the total lifecycle cost of such alter-
9	native option would be less than approximately
10	half of the estimated remaining total lifecycle
11	cost of the mixed-oxide fuel program; and
12	(C) pursuing such alternative option is in
13	the best interest of the Federal Government.
14	(5) The commitment of the Secretary to—
15	(A) remove plutonium from South Carolina;
16	and
17	(B) ensure a sustainable future for the Sa-
18	vannah River Site.

24	activities that support the design, long-lead equip-

ment procurement, and site preparation of the MOX

2	facility.
3	SEC. 3120. MODIFICATION OF MINOR CONSTRUCTION
4	THRESHOLD FOR PLANT PROJECTS.
5	Section 4701 of the Atomic Energy Defense Act (50
6	U.S.C. 2741) is amended—
7	(1) by striking "In this subtitle:" and inserting
8	the following:
9	"(a) IN GENERAL.—In this subtitle:";
10	(2) in paragraph (2), by striking "\$10,000,000"
11	and inserting "\$20,000,000, subject to adjustment
12	under subsection (b)"; and
13	(3) by adding at the end the following new sub-
14	section:
15	"(b) Adjustment of Minor Construction
16	THRESHOLD FOR INFLATION.—(1) The Secretary of Energy
17	shall adjust the amount of the minor construction threshold
18	on October 1, 2017, and at the beginning of each fiscal year
19	thereafter, to reflect the percentage (if any) of the increase
20	in the average of the Consumer Price Index for the pre-
21	ceding 12-month period compared to the Consumer Price
22	Index for fiscal year 2016.
23	"(2) In adjusting the amount of the minor construc-
24	tion threshold under paragraph (1), the Secretary—

	010
1	"(A) shall round the amount of any increase in
2	the Consumer Price Index to the nearest dollar; and
3	(B) may ignore any such increase of less than
4	1 percent.
5	"(3) For purposes of this subsection, the term 'Con-
6	sumer Price Index' means the Consumer Price Index for
7	All Urban Consumers published by the Bureau of Labor
8	Statistics of the Department of Labor.".
9	SEC. 3121. DESIGN COMPETITION.
10	(a) FINDINGS.—Congress finds the following:
11	(1) In January 2016, the co-chairs of a congres-
12	sionally-mandated study panel from the National
13	Academies of Science testified before the House Com-
14	mittee on Armed Services that:
15	(A) "The National Nuclear Security Ad-
16	ministration (NNSA) complex must engage in
17	robust design competitions in order to exercise
18	the design and production skills that underpin
19	stockpile stewardship and are necessary to meet
20	evolving threats."
21	(B) "To exercise the full set of design skills
22	necessary for an effective nuclear deterrent, the
23	NNSA should develop and conduct the first in
24	what the committee envisions to be a series of de-
25	sign competitions that integrate the full end-to-

1	end process from novel design conception through
2	engineering, building, and non-nuclear testing of
3	a prototype."
4	(2) In March 2016 testimony before the House
5	Committee on Armed Services regarding a December
6	2016 Defense Science Board (DSB) report titled,
7	"Seven Defense Priorities for the New Administra-
8	tion", members of the DSB said:
9	(A) "A key contributor to nuclear deterrence
10	is the continuous, adaptable exercise of the devel-
11	opment, design, and production functions for nu-
12	clear weapons in both the DOD and DOE Yet
13	the DOE laboratories and DOD contractor com-
14	munity have done little integrated design and
15	development work outside of life extension for 25
16	years, let alone concept development that could
17	serve as a hedge to surprise."
18	(B) "The Defense Science Board believes
19	that the triad's complementary features remain
20	robust tenets for the design of a future force. Re-
21	placing our current, aging force is essential, but
22	not sufficient in the more complex nuclear envi-
23	ronment we now face to provide the adaptability
24	or flexibility to confidently hold at risk what ad-
25	versaries value. In particular, if the threat

1	evolves in ways that favorably change the cost/
2	benefit calculus in the view of an adversary's
3	leadership, then we should be in a position to
4	quickly restore a credible deterrence posture."
5	(3) In a memorandum dated May 9, 2014, then-
6	Secretary of Energy Ernie Moniz said:
7	(A) "If nuclear military capabilities are to
8	provide deterrence for the nation they need to be
9	relevant to the emerging global strategic environ-
10	ment. The current stockpile was designed to meet
11	the needs of a bipolar world with roots in the
12	Cold War era. A more complex, chaotic, and dy-
13	namic security environment is emerging. In
14	order to uphold the Department's mission to en-
15	sure an effective nuclear deterrent we must en-
16	sure our nuclear capabilities meet the challenges
17	of known and potential geopolitical and techno-
18	logical trends. Therefore we must look ahead,
19	using the expertise of our laboratories, to how the
20	capabilities that may be employed by other na-
21	tions could impact deterrence over the next sev-
22	eral decades."
23	(B) "We must challenge our thinking about
24	our programs of record in order to permit fore-
25	sighted actions that may reduce, in the coming

1	decades, the chances for surprise and that but-
2	tress deterrence."
3	(b) Design Competition.—
4	(1) In general.—In accordance with para-
5	graph (2), the Administrator for Nuclear Security, in
6	coordination with the Chairman of the Nuclear Weap-
7	ons Council, shall carry out a new and comprehensive
8	design competition for a nuclear warhead that could
9	be employed on ballistic missiles of the United States
10	by 2030. Such competition shall—
11	(A) examine options for warhead design
12	and related delivery system requirements in the
13	2030s, including—
14	(i) life extension of existing weapons;
15	(ii) new capabilities; and
16	(iii) such other concepts that the Ad-
17	ministrator and Chairman determine nec-
18	essary to fully exercise and create responsive
19	design capabilities in the enterprise and en-
20	sure a robust nuclear deterrent into the
21	2030s;
22	(B) assess how the capabilities and defenses
23	that may be employed by other nations could im-
24	pact deterrence in 2030 and beyond and how

1	such threats could be addressed or mitigated in
2	the warhead and related delivery systems;
3	(C) exercise the full set of design skills nec-
4	essary for an effective nuclear deterrent and re-
5	sponsive enterprise through production of concep-
6	tual designs and, as the Administrator deter-
7	mines appropriate, production of non-nuclear
8	prototypes of components or subsystems; and
9	(D) examine and recommend actions for
10	significantly shortening timelines and signifi-
11	cantly reducing costs associated with design, de-
12	velopment, certification, and production of the
13	warhead, without reducing worker or public
14	health and safety.
15	(2) TIMING.—The Administrator shall—
16	(A) during fiscal year 2018 develop a plan
17	to carry out paragraph (1); and
18	(B) during fiscal year 2019 implement such
19	plan.
20	(c) BRIEFING.—Not later than March 1, 2018, the Ad-
21	ministrator, in coordination with the Chairman of the Nu-
22	clear Weapons Council, shall provide a briefing to the Com-
23	mittees on Armed Services of the Senate and House of Rep-
24	resentatives on the plan of the Administrator to carry out
25	the warhead design competition under subsection (b). Such

briefing shall include an assessment of the costs, benefits,
 risks, and opportunities of such plan, particularly impacts
 to ongoing life extension programs and infrastructure
 projects.

nationality of a foreign state identified under paragraph (2), the Secretary may waive the requirement
under subsection (a).

17 "(2) FOREIGN STATES.—The Director of Na18 tional Intelligence shall identify foreign states that
19 permit citizens or nationals of the United States to
20 serve in positions of trust equivalent to positions

performance, cost, efficiency, and effectiveness.
(B) An assessment of the total costs, for
each national security laboratory, that are in-
curred because of using a for-profit model for the

tiveness would be expected to increase or decrease
under a nonprofit model.

overseeing the national security laboratories with
respect to the nature of the laboratories as feder-
ally funded research and development centers.
