--	---	-----------------	---------------------------------------

- (2) The Kentucky Department of Education shall develop a program evaluation (a) framework regarding the use of the science and mathematics advancement fund for the purposes set forth in KRS 158.847. The program evaluation framework shall address areas including but not limited to the use of funds, the number of grants and awards, student achievement outcomes, and trends over time on the indicators established to measure progress against the statewide goals under subsection (1) of this section.
 - (b) Beginning in 2008, the department shall submit an annual report no later than December 1 to the Kentucky Board of Education and the Interim Joint Committee on Education. The report for 2008 shall provide a status report on the implementation of programs supported by the science and mathematics advancement fund. Subsequent reports shall incorporate information collected and analyzed based on the program evaluation framework under paragraph (a) of this subsection.
 - (c) Beginning in 2020, the department shall submit an annual report no later than December 1 to the Kentucky Board of Education and the Interim Joint Committee on Education that includes an unduplicated count of the number and percentage of public school students participating in computer science courses and other computer science educational opportunities. The data shall be disaggregated by gender, race, disability, English proficiency, and participation in the federal free and reduced-price lunch program. The report shall also include the number of computer science courses or programs offered in each school, the nature of the computer science courses or programs, the number of advanced placement computer science classes offered, and the number of computer science instructors at each
