

116TH CONGRESS  
1ST SESSION

# S. 2332

To provide for the modernization of the electric grid, and for other purposes.

---

## IN THE SENATE OF THE UNITED STATES

JULY 30, 2019

Ms. CANTWELL (for herself, Mr. HEINRICH, and Ms. HIRONO) introduced the following bill; which was read twice and referred to the Committee on Energy and Natural Resources

---

## A BILL

To provide for the modernization of the electric grid, and  
for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the  
5 “Grid Modernization Act of 2019”.

6 (b) TABLE OF CONTENTS.—The table of contents for  
7 this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Definitions.
- Sec. 3. Grid storage program.
- Sec. 4. Technology demonstration on the distribution system.
- Sec. 5. Micro-grid and hybrid micro-grid systems program.
- Sec. 6. Electric grid architecture, scenario development, and modeling.
- Sec. 7. Voluntary model pathways.

Sec. 8. Performance metrics for electricity infrastructure providers.  
 Sec. 9. Voluntary State, regional, and local electricity distribution planning.  
 Sec. 10. Authorization of appropriations.

1 **SEC. 2. DEFINITIONS.**

2 In this Act:

3 (1) DEPARTMENT.—The term “Department”  
 4 means the Department of Energy.

5 (2) NATIONAL LABORATORY.—The term “Na-  
 6 tional Laboratory” has the meaning given the term  
 7 in section 2 of the Energy Policy Act of 2005 (42  
 8 U.S.C. 15801).

9 (3) SECRETARY.—The term “Secretary” means  
 10 the Secretary of Energy.

11 **SEC. 3. GRID STORAGE PROGRAM.**

12 (a) IN GENERAL.—The Secretary shall conduct a  
 13 program of research, development, and demonstration of  
 14 electric grid energy storage that addresses the principal  
 15 challenges identified in the 2013 Department of Energy  
 16 Strategic Plan for Grid Energy Storage.

17 (b) AREAS OF FOCUS.—The program under this sec-  
 18 tion shall focus on—

19 (1) materials, electric thermal, electromechani-  
 20 cal, and electrochemical systems research;

21 (2) power conversion technologies research;

22 (3) developing—

23 (A) empirical and science-based industry  
 24 standards to compare the storage capacity,

1 cycle length and capabilities, and reliability of  
2 different types of electricity storage; and

3 (B) validation and testing techniques;

4 (4) other fundamental and applied research  
5 critical to widespread deployment of electricity stor-  
6 age;

7 (5) device development that builds on results  
8 from research described in paragraphs (1), (2), and  
9 (4), including combinations of power electronics, ad-  
10 vanced optimizing controls, and energy storage as a  
11 general purpose element of the electric grid;

12 (6) grid-scale testing and analysis of storage  
13 devices, including test-beds and field trials;

14 (7) cost-benefit analyses that inform capital ex-  
15 penditure planning for regulators and owners and  
16 operators of components of the electric grid;

17 (8) electricity storage device safety and reli-  
18 ability, including potential failure modes, mitigation  
19 measures, and operational guidelines;

20 (9) standards for storage device performance,  
21 control interface, grid interconnection, and inter-  
22 operability; and

23 (10) maintaining a public database of energy  
24 storage projects, policies, codes, standards, and reg-  
25 ulations.

1       (c) ASSISTANCE TO STATES.—The Secretary may  
2 provide technical and financial assistance to States, Indian  
3 Tribes, or units of local government to participate in or  
4 use research, development, or demonstration of technology  
5 developed under this section.

6       (d) AUTHORIZATION OF APPROPRIATIONS.—There is  
7 authorized to be appropriated to the Secretary to carry  
8 out this section \$50,000,000 for each of fiscal years 2020  
9 through 2028.

10      (e) NO EFFECT ON OTHER PROVISIONS OF LAW.—  
11 Nothing in this Act or an amendment made by this Act  
12 authorizes regulatory actions that would duplicate or con-  
13 flict with regulatory requirements, mandatory standards,  
14 or related processes under section 215 of the Federal  
15 Power Act (16 U.S.C. 824o).

16      (f) USE OF FUNDS.—To the maximum extent prac-  
17 ticable, in carrying out this section, the Secretary shall  
18 ensure that the use of funds to carry out this section is  
19 coordinated among different offices within the Grid Mod-  
20 ernization Initiative of the Department and other pro-  
21 grams conducting energy storage research.

22 **SEC. 4. TECHNOLOGY DEMONSTRATION ON THE DISTRIBUTION SYSTEM.**  
23

24      (a) IN GENERAL.—The Secretary shall establish a  
25 grant program to carry out eligible projects related to the

1 modernization of the electric grid, including the applica-  
2 tion of technologies to improve observability, advanced  
3 controls, and prediction of system performance on the dis-  
4 tribution system.

5 (b) ELIGIBLE PROJECTS.—To be eligible for a grant  
6 under subsection (a), a project shall—

7 (1) be designed to improve the performance and  
8 efficiency of the future electric grid, while ensuring  
9 the continued provision of safe, secure, reliable, and  
10 affordable power;

11 (2) demonstrate—

12 (A) secure integration and management of  
13 two or more energy resources, including distrib-  
14 uted energy generation, combined heat and  
15 power, micro-grids, energy storage, electric ve-  
16 hicles, energy efficiency, demand response, and  
17 intelligent loads; and

18 (B) secure integration and interoperability  
19 of communications and information tech-  
20 nologies; and

21 (3) be subject to the requirements of section  
22 545(a) of the Energy Security and Independence Act  
23 of 2007 (42 U.S.C. 17155(a)).

1 **SEC. 5. MICRO-GRID AND HYBRID MICRO-GRID SYSTEMS**

2 **PROGRAM.**

3 (a) DEFINITIONS.—In this section:

4 (1) HYBRID MICRO-GRID SYSTEM.—The term  
5 “hybrid micro-grid system” means a stand-alone  
6 electrical system that—

7 (A) is comprised of conventional generation  
8 and at least 1 alternative energy resource; and

9 (B) may use grid-scale energy storage.

10 (2) ISOLATED COMMUNITY.—The term “iso-  
11 lated community” means a community that is pow-  
12 ered by a stand-alone electric generation and dis-  
13 tribution system without the economic and reliability  
14 benefits of connection to a regional electric grid.

15 (3) MICRO-GRID SYSTEM.—The term “micro-  
16 grid system” means a standalone electrical system  
17 that uses grid-scale energy storage.

18 (4) STRATEGY.—The term “strategy” means  
19 the strategy developed pursuant to subsection  
20 (b)(2)(B).

21 (b) PROGRAM.—

22 (1) ESTABLISHMENT.—The Secretary shall es-  
23 tablish a program to promote the development of—

24 (A) hybrid micro-grid systems for isolated  
25 communities; and

1 (B) micro-grid systems to increase the re-  
2 silience of critical infrastructure.

3 (2) PHASES.—The program established under  
4 paragraph (1) shall be divided into the following  
5 phases:

6 (A) Phase I, which shall consist of the de-  
7 velopment of a feasibility assessment for—

8 (i) hybrid micro-grid systems in iso-  
9 lated communities; and

10 (ii) micro-grid systems to enhance the  
11 resilience of critical infrastructure.

12 (B) Phase II, which shall consist of the de-  
13 velopment of an implementation strategy, in ac-  
14 cordance with paragraph (3), to promote the  
15 development of hybrid micro-grid systems for  
16 isolated communities, particularly for those  
17 communities exposed to extreme weather condi-  
18 tions and high energy costs, including elec-  
19 tricity, space heating and cooling, and transpor-  
20 tation.

21 (C) Phase III, which shall be carried out  
22 in parallel with Phase II and consist of the de-  
23 velopment of an implementation strategy to  
24 promote the development of micro-grid systems

that increase the resilience of critical infrastructure.

(D) Phase IV, which shall consist of cost-shared demonstration projects, based upon the strategies developed under subparagraph (B) that include the development of physical and cybersecurity plans to take appropriate measures to protect and secure the electric grid.

(E) Phase V, which shall establish a benefits analysis plan to help inform regulators, policymakers, and industry stakeholders about the affordability, environmental and resilience benefits associated with Phases II, III, and IV.

(3) REQUIREMENTS FOR STRATEGY.—In developing the strategy under paragraph (2)(B), the Secretary shall consider—

(A) establishing future targets for the economic displacement of conventional generation using hybrid micro-grid systems, including displacement of conventional generation used for electric power generation, heating and cooling, and transportation;

(B) the potential for renewable resources, including wind, solar, and hydropower, to be integrated into a hybrid micro-grid system;

1 (C) opportunities for improving the effi-  
2 ciency of existing hybrid micro-grid systems;

3 (D) the capacity of the local workforce to  
4 operate, maintain, and repair a hybrid micro-  
5 grid system;

6 (E) opportunities to develop the capacity of  
7 the local workforce to operate, maintain, and  
8 repair a hybrid micro-grid system;

9 (F) leveraging existing capacity within  
10 local or regional research organizations, such as  
11 organizations based at institutions of higher  
12 education, to support development of hybrid  
13 micro-grid systems, including by testing novel  
14 components and systems prior to field deploy-  
15 ment;

16 (G) the need for basic infrastructure to de-  
17 velop, deploy, and sustain a hybrid micro-grid  
18 system;

19 (H) input of traditional knowledge from  
20 local leaders of isolated communities in the de-  
21 velopment of a hybrid micro-grid system;

22 (I) the impact of hybrid micro-grid systems  
23 on defense, homeland security, economic devel-  
24 opment, and environmental interests;

1                   (J) opportunities to leverage existing inter-  
 2                   agency coordination efforts and recommenda-  
 3                   tions for new interagency coordination efforts to  
 4                   minimize unnecessary overhead, mobilization,  
 5                   and other project costs; and

6                   (K) any other criteria the Secretary deter-  
 7                   mines appropriate.

8           (c) COLLABORATION.—The program established  
 9           under subsection (b)(1) shall be carried out in collabora-  
 10          tion with relevant stakeholders, including, as appro-  
 11          priate—

- 12                   (1) States;
- 13                   (2) Indian Tribes;
- 14                   (3) regional entities and regulators;
- 15                   (4) units of local government;
- 16                   (5) institutions of higher education; and
- 17                   (6) private sector entities.

18          (d) REPORT.—Not later than 180 days after the date  
 19          of enactment of this Act, and annually thereafter until cal-  
 20          endar year 2029, the Secretary shall submit to the Com-  
 21          mittee on Energy and Natural Resources of the Senate  
 22          and the Committee on Energy and Commerce of the  
 23          House of Representatives a report on the efforts to imple-  
 24          ment the program established under subsection (b)(1) and

1 the status of the strategy developed under subsection  
2 (b)(2)(B).

3 **SEC. 6. ELECTRIC GRID ARCHITECTURE, SCENARIO DEVELOP-**  
4 **OPMENT, AND MODELING.**

5 (a) GRID ARCHITECTURE AND SCENARIO DEVELOP-  
6 MENT.—

7 (1) IN GENERAL.—Subject to paragraph (2),  
8 the Secretary shall establish and facilitate a collabo-  
9 rative process to develop model grid architecture and  
10 a set of future scenarios for the electric grid to ex-  
11 amine the impacts of different combinations of re-  
12 sources (including different quantities of distributed  
13 energy resources and large-scale, central generation)  
14 on the electric grid.

15 (2) MARKET STRUCTURE.—The grid architec-  
16 ture and scenarios developed under paragraph (1)  
17 shall account for differences in market structure, in-  
18 cluding an examination of the potential for stranded  
19 costs in each type of market structure.

20 (3) FINDINGS.—Based on the findings of grid  
21 architecture developed under paragraph (1), the Sec-  
22 retary shall—

23 (A) determine whether any additional  
24 standards are necessary to ensure the interoper-

1 ability of grid systems and associated commu-  
2 nications networks; and

3 (B) if the Secretary makes a determination  
4 that additional standards are necessary under  
5 subparagraph (A), make recommendations for  
6 additional standards, including, as may be ap-  
7 propriate, to the Electric Reliability Organiza-  
8 tion under section 215 of the Federal Power  
9 Act (16 U.S.C. 824o). The Electric Reliability  
10 Organization shall not be under any obligation  
11 to establish any process to consider such rec-  
12 ommendations.

13 (b) MODELING.—Subject to subsection (c), the Sec-  
14 retary shall—

15 (1) conduct modeling based on the scenarios de-  
16 veloped under subsection (a); and

17 (2) analyze and evaluate the technical and fi-  
18 nancial impacts of the models to assist States, utili-  
19 ties, and other stakeholders in—

20 (A) enhancing strategic planning efforts;

21 (B) avoiding stranded costs; and

22 (C) maximizing the cost-effectiveness of fu-  
23 ture grid-related investments.

24 (c) INPUT.—The Secretary shall develop the sce-  
25 narios and conduct the modeling and analysis under sub-

1 sections (a) and (b) with participation or input, as appro-  
2 priate, from—

3 (1) the National Laboratories;

4 (2) States;

5 (3) State regulatory authorities;

6 (4) transmission organizations;

7 (5) representatives of all sectors of the electric  
8 power industry;

9 (6) academic institutions;

10 (7) independent research institutes; and

11 (8) other entities.

12 (d) EFFECT.—Nothing in this section grants any per-  
13 son a right to receive or review confidential, proprietary,  
14 or otherwise protected information concerning grid archi-  
15 tecture or scenarios.

16 **SEC. 7. VOLUNTARY MODEL PATHWAYS.**

17 (a) ESTABLISHMENT OF VOLUNTARY MODEL PATH-  
18WAYS.—

19 (1) ESTABLISHMENT.—Not later than 90 days  
20 after the date of enactment of this Act, the Sec-  
21 retary, in consultation with the steering committee  
22 established under paragraph (3), shall initiate the  
23 development of voluntary model pathways for mod-  
24 ernizing the electric grid through a collaborative,  
25 public-private effort that—

1 (A) produces illustrative policy pathways  
2 encompassing a diverse range of technologies  
3 that can be adapted for State and regional ap-  
4 plications by regulators and policymakers;

5 (B) facilitates the modernization of the  
6 electric grid and associated communications  
7 networks to achieve the objectives described in  
8 paragraph (2);

9 (C) ensures a reliable, resilient, affordable,  
10 safe, and secure electric grid; and

11 (D) acknowledges and accounts for dif-  
12 ferent priorities, electric systems, and rate  
13 structures across States and regions.

14 (2) OBJECTIVES.—The pathways established  
15 under paragraph (1) shall facilitate achievement of  
16 as many of the following objectives as practicable:

17 (A) Near real-time situational awareness of  
18 the electric system.

19 (B) Data visualization.

20 (C) Advanced monitoring and control of  
21 the advanced electric grid.

22 (D) Enhanced certainty of policies for in-  
23 vestment in the electric grid.

24 (E) Increased innovation.

25 (F) Greater consumer empowerment.

1 (G) Enhanced grid resilience, reliability,  
2 and robustness.

3 (H) Improved—

4 (i) integration of distributed energy  
5 resources;

6 (ii) interoperability of the electric sys-  
7 tem; and

8 (iii) predictive modeling and capacity  
9 forecasting.

10 (I) Reduced cost of service for consumers.

11 (J) Diversification of generation sources.

12 (3) STEERING COMMITTEE.—Not later than 90  
13 days after the date of enactment of this Act, the  
14 Secretary shall establish a steering committee to  
15 help develop the pathways under paragraph (1), to  
16 be composed of members appointed by the Secretary,  
17 consisting of persons with appropriate expertise rep-  
18 resenting a diverse range of interests in the public,  
19 private, and academic sectors, including representa-  
20 tives of—

21 (A) the Federal Energy Regulatory Com-  
22 mission;

23 (B) the National Laboratories;

24 (C) States;

25 (D) State regulatory authorities;

- 1 (E) transmission organizations;
- 2 (F) representatives of all sectors of the
- 3 electric power industry;
- 4 (G) institutions of higher education;
- 5 (H) independent research institutes; and
- 6 (I) other entities.

7 (b) TECHNICAL ASSISTANCE.—The Secretary may  
 8 provide technical assistance to States, Indian Tribes, or  
 9 units of local government to adopt or implement one or  
 10 more elements of the pathways developed under subsection  
 11 (a)(1), including on a pilot basis.

12 **SEC. 8. PERFORMANCE METRICS FOR ELECTRICITY INFRA-**  
 13 **STRUCTURE PROVIDERS.**

14 (a) IN GENERAL.—Not later than 2 years after the  
 15 date of enactment of this Act, the Secretary, in consulta-  
 16 tion with the steering committee established under section  
 17 7(a)(3), shall submit to the Committee on Energy and  
 18 Natural Resources of the Senate and the Committee on  
 19 Energy and Commerce of the House of Representatives  
 20 a report that includes—

- 21 (1) an evaluation of the performance of the
- 22 electric grid as of the date of the report; and
- 23 (2) a description of the projected range of
- 24 measurable costs and benefits associated with the

1 changes evaluated under the scenarios developed  
2 under section 6.

3 (b) CONSIDERATIONS FOR DEVELOPMENT OF  
4 METRICS.—In developing metrics for the evaluation and  
5 projections under subsection (a), the Secretary shall con-  
6 sider—

7 (1) standard methodologies for calculating im-  
8 provements or deteriorations in the performance  
9 metrics, such as reliability, grid efficiency, power  
10 quality, consumer satisfaction, sustainability, and fi-  
11 nancial incentives;

12 (2) standard methodologies for calculating po-  
13 tential costs and measurable benefits value to rate-  
14 payers, applying the performance metrics developed  
15 under paragraph (1);

16 (3) identification of tools, resources, and de-  
17 ployment models that may enable improved perform-  
18 ance through the adoption of emerging, commer-  
19 cially available or advanced grid technologies or solu-  
20 tions, including—

21 (A) multicustomer micro-grids;

22 (B) distributed energy resources;

23 (C) energy storage;

24 (D) electric vehicles;

25 (E) electric vehicle charging infrastructure;

1 (F) integrated information and commu-  
 2 nications systems;

3 (G) transactive energy systems; and

4 (H) advanced demand management sys-  
 5 tems; and

6 (4) the role of States and local regulatory au-  
 7 thorities in enabling a robust future electric grid to  
 8 ensure that—

9 (A) electric utilities remain financially via-  
 10 ble;

11 (B) electric utilities make the needed in-  
 12 vestments that ensure a reliable, secure, and re-  
 13 silient grid; and

14 (C) costs incurred to transform to an inte-  
 15 grated grid are allocated and recovered respon-  
 16 sibly, efficiently, and equitably.

17 **SEC. 9. VOLUNTARY STATE, REGIONAL, AND LOCAL ELEC-**  
 18 **TRICITY DISTRIBUTION PLANNING.**

19 (a) IN GENERAL.—On the request of a State, re-  
 20 gional organization, or electric utility, the Secretary shall  
 21 provide assistance to States, regional organizations, and  
 22 electric utilities to facilitate the development of State, re-  
 23 gional, and local electricity distribution plans by—

1           (1) conducting a resource assessment and anal-  
2       ysis of future demand and distribution requirements;  
3       and

4           (2) developing open source tools for State, re-  
5       gional, and local planning and operations.

6       (b) RISK AND SECURITY ANALYSIS.—The assessment  
7       under subsection (a)(1) shall include—

8           (1) the evaluation of the physical security, cy-  
9       bersecurity, and associated communications needs of  
10      an advanced distribution management system and  
11      the integration of distributed energy resources; and

12          (2) advanced use of grid architecture to analyze  
13      risks in an all-hazards approach that includes com-  
14      munications infrastructure, control systems architec-  
15      ture, and power systems architecture.

16      (c) DESIGNATION.—The information collected for the  
17      assessment and analysis under subsection (a)(1)—

18          (1) shall be considered to be critical electric in-  
19      frastructure information under section 215A of the  
20      Federal Power Act (16 U.S.C. 824o–1); and

21          (2) shall only be released in compliance with  
22      regulations implementing that section.

23      (d) TECHNICAL ASSISTANCE.—For the purpose of  
24      assisting in the development of State and regional elec-

1 tricity distribution plans, the Secretary shall provide tech-  
 2 nical assistance to—

3 (1) States;

4 (2) regional reliability entities; and

5 (3) other distribution asset owners and opera-  
 6 tors.

7 (e) WITHDRAWAL.—A State or any entity that has  
 8 requested technical assistance under this section may  
 9 withdraw the request for technical assistance at any time,  
 10 and on such withdrawal, the Secretary shall terminate all  
 11 assistance efforts.

12 (f) EFFECT.—Nothing in this section authorizes the  
 13 Secretary to require any State, regional organization, re-  
 14 gional reliability entity, asset owner, or asset operator to  
 15 adopt any model, tool, plan, analysis, or assessment.

16 **SEC. 10. AUTHORIZATION OF APPROPRIATIONS.**

17 There is authorized to be appropriated to the Sec-  
 18 retary to carry out section 4 through this section  
 19 \$200,000,000 for each of fiscal years 2020 through 2028.

○
