31 Preamble

32 WHEREAS, One in five citizens in Maryland live in rural or medically underserved
33 communities and face challenges in accessing health care services because only 10% of
34 physicians choose to work in rural or medically underserved communities; and

35 WHEREAS, A report prepared on behalf of the Association of American Medical
36 Colleges projects a total physician shortfall of between 40,800 and 104,900 physicians by
37 2030; and

38 WHEREAS, The 2017 Report of the Workgroup on Rural Health Delivery to the
39 Maryland Health Care Commission focused on expanding the health care workforce as one

of its priorities, recommending tax credits, loan or grant opportunities to incentivize physicians, medical students, and residents, and streamlining and expanding the Loan Assistance Repayment Program (LARP) by centralizing oversight of the program; and

WHEREAS, Emerging evidence demonstrates that scholarship and loan repayment programs are effective in achieving long-term retention of participants in the communities they serve; and

WHEREAS, Based on a retention study conducted by the Maryland Department of Health's Office of Workforce Development in 2017, 83% of health care providers agreed to stay in Maryland or at their current practice site after their obligation under LARP was completed; and

WHEREAS, The funding stream for LARP has been reduced over the last 5 years at a time when over 350 health care providers have applied for funding and over 100 have been denied in fiscal years 2019 and 2020 due to lack of funding, decreasing the availability of specialty providers in medically underserved areas throughout Maryland; now, therefore,
