Preamble

WHEREAS, One in five citizens in Maryland live in rural or medically underserved

1 communities and face challenges in accessing health care services because only 10% of
2 physicians choose to work in rural or medically underserved communities; and

3 WHEREAS, A report prepared on behalf of the Association of American Medical
4 Colleges projects a total physician shortfall of between 40,800 and 104,900 physicians by
5 2030; and

6 WHEREAS, The 2017 Report of the Workgroup on Rural Health Delivery to the
7 Maryland Health Care Commission focused on expanding the health care workforce as one
8 of its priorities, recommending tax credits, loan or grant opportunities to incentivize
9 physicians, medical students, and residents, and streamlining and expanding the Loan
10 Assistance Repayment Program (LARP) by centralizing oversight of the program; and

11 WHEREAS, Emerging evidence demonstrates that scholarship and loan repayment
12 programs are effective in achieving long-term retention of participants in the communities
13 they serve; and

14 WHEREAS, Based on a retention study conducted by the Maryland Department of
15 Health's Office of Workforce Development in 2017, 83% of health care providers agreed to
16 stay in Maryland or at their current practice site after their obligation under LARP was
17 completed; and

18 WHEREAS, The funding stream for LARP has been reduced over the last 5 years at
19 a time when over 350 health care providers have applied for funding and over 100 have
20 been denied in fiscal years 2019 and 2020 due to lack of funding, decreasing the availability
21 of specialty providers in medically underserved areas throughout Maryland; now, therefore,
