$2 \\ 3 \\ 4 \\ 5 \\ 6$	BY repealing and reenacting, with amendments, Article – Environment Section 9–1605.2(i)(2) and (l) Annotated Code of Maryland (2014 Replacement Volume and 2016 Supplement)
7 8	SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND, That the Laws of Maryland read as follows:
9	Article – Environment
10	9–1605.2.
11	(a) (1) There is a Bay Restoration Fund.
12 13 14	(i) (1) In this subsection, "eligible costs" means the additional costs that would be attributable to upgrading a wastewater facility from biological nutrient removal to enhanced nutrient removal, as determined by the Department.
15	(2) Funds in the Bay Restoration Fund shall be used only:
16 17 18 19	(i) To award grants for up to 100% of eligible costs of projects relating to planning, design, construction, and upgrade of a wastewater facility for flows up to the design capacity of the wastewater facility, as approved by the Department, to achieve enhanced nutrient removal in accordance with paragraph (3) of this subsection;
$20 \\ 21 \\ 22 \\ 23$	(ii) In fiscal years 2016 and thereafter, for up to 87.5% of the total cost of projects, as approved by the Department, relating to combined sewer overflows abatement, rehabilitation of existing sewers, and upgrading conveyance systems, including pumping stations;
$24 \\ 25 \\ 26 \\ 27$	(iii) In fiscal years 2010 and thereafter, for a portion of the operation and maintenance costs related to the enhanced nutrient removal technology, which may not exceed 10% of the total restoration fee collected from users of wastewater facilities under this section by the Comptroller annually;
$28 \\ 29 \\ 30$	(iv) In fiscal years 2018 and thereafter, after payment of outstanding bonds and the allocation of funds to other required uses of the Bay Restoration Fund for funding in the following order of priority:
31 32 33	1. For funding an upgrade of a wastewater facility to enhanced nutrient removal at wastewater facilities with a design capacity of 500,000 gallons or more per day;

1 2. For funding for the most cost-effective enhanced nutrient  $\mathbf{2}$ removal upgrades at wastewater facilities with a design capacity of less than 500,000 3 gallons per day; and 4 3. As determined by the Department and based on water  $\mathbf{5}$ quality and public health benefits, for the following: 6 Α. For costs identified under item (ii) of this paragraph; 7 В. For costs identified under subsection (h)(2)(i)1 of this 8 section; and 9 С. With respect to a local government that has enacted and implemented a system of charges to fully fund the implementation of a stormwater 10 11 management program, for grants to the local government for a portion of the costs of the 12most cost-effective and efficient stormwater control measures, as determined and approved 13by the Department, from the restoration fees collected annually by the Comptroller from 14 users of wastewater facilities under this section: 15(v) As a source of revenue or security for the payment of principal and interest on bonds issued by the Administration if the proceeds of the sale of the bonds 1617will be deposited in the Bay Restoration Fund; 18 (vi) To earn interest on Bay Restoration Fund accounts; 19 For the reasonable costs of administering the Bay Restoration (vii) 20Fund, which may not exceed 1.5% of the total restoration fees imposed on users of 21wastewater facilities that are collected by the Comptroller annually; 22(viii) For the reasonable administrative costs incurred by a local 23government or a billing authority for a water or wastewater facility collecting the 24restoration fees, in an amount not to exceed 5% of the total restoration fees collected by 25that local government or billing authority; 26For future upgrades of wastewater facilities to achieve additional (ix) 27nutrient removal or water quality improvement, in accordance with paragraphs (6) and (7) 28of this subsection: 29For costs associated with the issuance of bonds; (x) 30 Subject to the allocation of funds and the conditions under (xi) 31 subsection (h) of this section, for projects related to the removal of nitrogen from on-site 32sewage disposal systems and cover crop activities; [and] 33 For costs associated with the implementation of alternate (xii) 34compliance plans authorized in § 4-202.1(k)(3) of this article; AND
