Sec. 3727.53. (A) In accordance with division (B) of this 8
section, each hospital shall create an evidence-based written 9
nursing services staffing plan guiding the assignment of nurses 10
hospital-wide. The staffing plan shall be implemented not later 11
than ninety days after the hospital-wide nursing care committee 12
is convened pursuant to section 3727.51 of the Revised Code, 13
except that if the hospital's next fiscal year starts not later 14

committee convenes, implementation may be delayed until the 16
first day of that fiscal year. 17

(B) The staffing plan created under this section shall, at 18

a minimum, be consistent with section 3727.58 of the Revised 19
Code and reflect current standards established by private 20
accreditation organizations or governmental entities. The plan 21
shall be based on multiple nurse and patient considerations that 22
yield minimum staffing levels for inpatient care units that 23
ensure that the hospital has a staff of competent nurses with 24
specialized skills needed to meet patient needs. These 25
considerations shall include both of the following: 26

(1) The recommendations of the hospital-wide nursing care 27
committee made under section 3727.52 of the Revised Code, which 28

(3) "Shift" means a specific period of time a registered 42

of a registered nurse or licensed practical nurse with the 53
hospital solely because the nurse chooses not to work overtime; 54

retaliatory action against a registered nurse or licensed 56
practical nurse solely because the nurse chooses not to work 57
overtime. 58

nurse or licensed practical nurse or permitting a registered 64
