18 clearing debris specified in regulations of the Department, a bond filed under this section
19 shall be in the amount of \$2,000 for each acre of land to which the permit applies, with a
20 minimum amount of security of \$25,000.

21 (e) Both the applicant for a permit and a corporate surety licensed to do business
22 in this State shall execute any bond filed under this section.

23 (f) (1) Except as provided in paragraph (2) of this subsection, the term of any

7 Department:

8 (i) Notifies the permit holder and any corporate surety on the bond
9 that the landfill, incinerator, **WOOD VAULT**, or transfer station has not been closed in a
10 manner that prevents erosion, health and safety hazards, nuisances, and pollution;

11 (ii) Specifies in the notice the deficiencies in the closing that must be
12 corrected;

13 (iii) Gives the permit holder and the corporate surety a reasonable
14 opportunity to correct the deficiencies and to close the landfill, incinerator, **WOOD VAULT**,

26 (i) Any law of this State or any other state concerning sanitary
27 landfills **OR WOOD VAULTS**; or

28 (ii) Any regulation or permit condition of this State or any other
29 state concerning sanitary landfills **OR WOOD VAULTS**; or

31 **WOOD VAULT** would harm public health or the environment.

32 9-213.

1 (a) A permit for a landfill system **OR WOOD VAULT** expires on the 5th
2 anniversary of its date of issue, unless the permit is renewed for a 5-year term as provided
3 in this section.

4 (b) Before a permit for a landfill system **OR WOOD VAULT** expires, the permit
5 holder may renew it for an additional 5-year term, if the permit holder:

6 (1) Submits to the Department a renewal application on the form that the
7 Department requires;

8 (2) Gives notice, by certified mail, of the renewal application to each
9 member of the General Assembly in whose district the landfill system **OR WOOD VAULT** is
10 located; and

11 (3) Obtains the written approval of the Department.

12 9-214.

13 The Department may refuse to renew a permit for a landfill system **OR WOOD**
14 **VAULT** if:

15 (1) The permit holder violates any provision of this subtitle, any regulation
16 adopted under this subtitle, any condition of the permit, or, if operating a landfill **OR WOOD**
17 **VAULT** in another state, any statute, regulation, or permit of that state concerning landfill
18 systems **OR WOOD VAULTS**;

19 (2) The Department finds that continued operation of the landfill system
20 **OR WOOD VAULT** would be injurious to public health or the environment; or

21 (3) The Department finds that there is any other good cause.

22 9-215.

23 (a) When landfill **OR WOOD VAULT** operations end, the holder of a permit issued
24 under this subtitle for a landfill system **OR WOOD VAULT** shall close and cover all of the
25 land for which the permit was issued in a manner that prevents:

26 (1) Erosion;

27 (2) Health and safety hazards;

28 (3) Nuisances; and

29 (4) Pollution.

1 (b) The Department shall adopt regulations that set standards for the closing and
2 covering of landfill systems **AND WOOD VAULTS**.

3 9-220.

4 (a) The Secretary shall order the owner or person in charge of a water supply
5 system, sewerage system, **WOOD VAULT**, or refuse disposal system to correct the following
6 improper conditions, if, after investigation, the Secretary determines that, because of
7 incompetent supervision or inefficient operation, the water supply system, sewerage
8 system, **WOOD VAULT**, or refuse disposal system:

9 (1) Is not producing reasonable results from a sanitary viewpoint;

10 (2) Is a menace to health or comfort; or

11 (3) Is causing a nuisance.

12 (b) The order shall require that the water supply system, sewerage system,
13 **WOOD VAULT**, or refuse disposal system produce specific, reasonable results within a time
14 that the Secretary sets.

15 (c) (1) If the water supply system, sewerage system, **WOOD VAULT**, or refuse
16 disposal system does not produce the required results within the time that the Secretary
17 sets, the Secretary may order the owner or person in charge to appoint, within a time that
18 the Secretary sets, a person approved by the Secretary to take charge of and operate the
19 system in a manner that will secure the results demanded by the Secretary.

20 (2) The person who is served with an order under paragraph (1) of this
21 subsection shall pay the salary of the person who is appointed in compliance with the order.

22 9-221.

23 (a) If, after investigation, the Department determines that any water supply
24 system, sewerage system, **WOOD VAULT**, or refuse disposal system is a menace to health
25 or comfort or is causing a nuisance, and that conditions cannot be improved sufficiently
26 only by changing the method of operation, the Department may order the owner:

27 (1) To alter or extend the water supply system, sewerage system, **WOOD**
28 **VAULT**, or refuse disposal system; or

29 (2) To install a new water supply system, sewerage system, **WOOD VAULT**,
30 or refuse disposal system.

31 9-252.

1 (a) (1) To prevent or correct pollution of the waters of this State, the Secretary
2 may:

3 (i) Adopt and enforce regulations; and

4 (ii) Order works to be executed.

5 (2) The Secretary may:

6 (i) Require any public water supply system, public sewerage
7 system, **WOOD VAULT**, or refuse disposal system to be operated in a manner that will
8 protect public health and comfort; and

9 (ii) Order the alteration, extension, or replacement of any public
10 water supply system, public sewerage system, **WOOD VAULT**, or refuse disposal system.

11 (b) The Secretary:

12 (1) Has supervision and control over the sanitary and physical condition of
13 the waters of this State to protect public health and comfort;

14 (2) Shall investigate:

15 (i) All sources of water and ice; and

16 (ii) All points of sewage discharge;

17 (3) Shall examine all public water supply systems, public sewerage
18 systems, **WOOD VAULTS**, and refuse disposal systems; and

19 (4) Shall approve or disapprove the design and construction of any public
20 water supply system, public sewerage system, **WOOD VAULT**, or refuse disposal system
21 that is to be built in this State.

22 (c) The powers and duties of the Secretary under this section are in addition to
23 the powers and duties set forth elsewhere in this subtitle.

24 9–314.

25 (a) **(1)** The Department may adopt [rules and] regulations that set, for the
26 waters of this State, water quality standards and effluent standards.

27 **(2)** These standards shall be designed to protect:

28 **[(1)] (1)** The public health, safety, and welfare;

1 [(2)] (II) Present and future use of the waters of this State for public water
2 supply;

3 [(3)] (III) The propagation of aquatic life and wildlife;

4 [(4)] (IV) Recreational use of the waters of this State; and

5 [(5)] (V) Agricultural, industrial, and other legitimate uses of the waters
6 of this State.

7 (b) The [rules and] regulations adopted under this section shall include at least
8 the following:

9 (1) Water quality standards that specify the maximum permissible short
10 term and long term concentrations of pollutants in the water, the minimum permissible
11 concentrations of dissolved oxygen and other desirable matter in the water, and the
12 temperature range for the water.

13 (2) Effluent standards that specify the maximum loading or concentrations
14 and the physical, thermal, chemical, biological, and radioactive properties of wastes that
15 may be discharged into the waters of this State.

16 (3) Definition of technique for filling and sealing abandoned water wells
17 and holes, [for] disposal wells, [for] deep mines and surface mines, **WOOD VAULTS**, and
18 [for] landfills to prevent groundwater contamination, seepage, and drainage into the
19 waters of this State.

20 (4) Requirements for the sale, offer, use, or storage of pesticides and other
21 substances that the Department finds to constitute water pollution hazards.

22 (5) Procedures for water pollution incidents or emergencies that constitute
23 an acute danger to health or the environment.

24 (6) Provisions for equipment and procedures for monitoring pollutants,
25 collecting samples, and logging and reporting of monitoring.

26 (c) Effluent standards set under this section shall be at least as stringent as those
27 specified by the National Pollutant Discharge Elimination System.

28 9–501.

29 (a) In this subtitle the following words have the meanings indicated.

30 (n) (1) “Solid waste acceptance facility” means any sanitary landfill,
