

WHY YOU SHOULD SIGN THE FREESPEECH4HEALTH PETITION

**1 MILLION VOICES
FOR FREE SPEECH 4 HEALTH
SIGN PETITION NOW**

**TO CHANGE
YOUTUBE'S MEDICAL
MISINFORMATION POLICY!**

Some of the most powerful forms of control are the ones we don't see. Using complex algorithms and artificial intelligence, private tech giants like Alphabet, which owns Google and YouTube, wield unseen power, filtering what we do and don't see. This restriction of free speech hinders critical thought and prevents us exploring diverse perspectives. This can be a matter of life or death when it comes to health information.

YouTube's new medical misinformation policy is the first of its kind to disallow content that isn't in line with national health authorities like the CDC or the World Health Organization. Do you think government agencies and inter-governmental organizations have a monopoly on health expertise – or do you think they're trying to create industrial monopolies based on drugs and vaccines?

If you care about managing your own health guided by the experts you value and the products you choose, stand with us against Big Social censorship. Free speech and public discourse are necessary to allow critical thought, informed choices, and to expose falsehood. Together, we can reclaim the right to explore, question, and engage with all viewpoints.

Sign our petition and help us get 1 million signatures calling on YouTube to alter its medical misinformation policy to allow free speech on health issues.
