

COVID Truths You Haven't Heard

Dear friend, loved one or fellow human being,

This is a collection of facts about COVID, peer reviewed and triple checked by experts in their fields, that you probably haven't heard. I'm giving you this because I'm deeply concerned that our elected officials are lying to us about COVID, putting millions of people at risk and endangering our freedom.

I do not ask that you agree with me. None of the information below has been widely publicized in the media. In fact, much of it has been actively suppressed.

My intention is to ensure that you have all of the facts. You can then make up your own mind. I believe that we can disagree and have constructive discussions about important issues and complete, accurate information is the foundation of that discourse.

I am not asking for you to do anything other than consider this information. Some of us may decide to advocate for change in certain areas and some may not. However, if we're lucky, we'll still have a democracy in a few years and I hope that you'll consider the information below when choosing your elected officials.

clout

CDC In Their Own Words

Masks

Sylvia Burwell, HHS Secretary during the Obama Admin - “masks you buy in the store, the leakage around that doesn’t really do much to protect you. Now in the United States, there is absolutely no reason whatsoever to wear a mask.” From “[The Real Anthony Fauci](#)”.

<https://nypost.com/2021/06/06/epidemiologist-claims-faucis-credibility-is-entirely-shot/>

Dr. Paul Alexander, of the Brownstone Institute, published a list of 150 comparative studies on the ineffectiveness of masks which was subsequently censored via the canceling of social media accounts of many who shared the list.

<https://brownstone.org/articles/more-than-150-comparative-studies-and-articles-on-mask-ineffectiveness-and-harms/>

Asymptomatic Spread

Sylvia Burwell, HHS Secretary during the Obama Admin - “in all the history of respiratory borne viruses of any type, asymptomatic transmission has never been the driver of outbreaks. The drive of outbreaks is always symptomatic persons.” Page 61 of “[The Real Anthony Fauci](#)”.

Great Barrington Declaration

Signed and released on October 4, 2020 by a group of distinguished epidemiologists and physicians. The declaration simply pointed out that the population vulnerable to Covid is the elderly and those with comorbidities. The risk of death from Covid for the rest of the population was no far less than many other infectious diseases we have lived with for decades. These brave physicians placed themselves at great professional risk in order to share their well reasoned medical point of view with the world. Their objective was to make it clear that continued lockdowns and restrictions on those not at risk were counterproductive and prolonged the time required to reach “herd immunity”. The declaration has been signed by over 60,000 medical professionals.

Outpatient Protocols for Treating COVID

Dr. Zelenko fought one of the first outbreaks of COVID in the US in his community in New York. His elderly patients had a very low hospitalization rate and even lower death rate. Likewise, Dr. McCullough used his years of experience to guide his treatment of patients and he quickly arrived at a protocol that prevented the need for hospitalization and sustained a high survival rate.

Suppression of Early Treatment Information

Early Treatment Strategies not Recommended or Suppressed

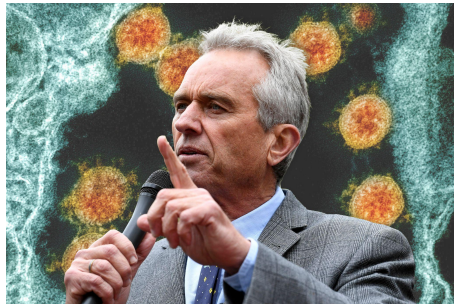

From, "[The Real Anthony Fauci](#)": 'Dr. David Brownstein: "I had a meeting with my staff and my six partners. I told them, 'We are going to stay open and treat COVID.' They wanted to know how. I said, 'We've been treating viral diseases here for twenty-five years. COVID can't be any different.' In all that time, our office had never lost a single patient to flu or flu-like illness. We treated people in their cars with oral vitamins A, C, and D, and iodine. We administered IV solution outside all winter with IV hydrogen

peroxide and vitamin C. We'd have them put their butts out the car window and shot them up with intramuscular ozone. We nebulized them with hydrogen peroxide and

Lugol's iodine. We only rarely used ivermectin and hydroxychloroquine. We treated 715 patients and had ten hospitalizations and no deaths. Early treatment was the key. We weren't allowed to talk about it. The whole medical establishment was trying to shut down early treatment and silence all the doctors who talked about successes. A whole generation of doctors just stopped practicing medicine. When we talked about it, the whole cartel came for us. I've been in litigation with the Medical

Board for a year. When we posted videos from some of our recovered patients, they went viral. One of the videos had a million views. FTC filed a motion against us, and we had to take everything down.”

From, “[The Real Anthony Fauci](#)”: ‘By March, front-line doctors around the world were spontaneously reporting miraculous results following early treatment with HCQ, and this prompted growing anxiety for Pharma. On March 13, a Michigan doctor and trader, Dr. James Todaro, M.D., tweeted his review of HCQ as an effective COVID treatment, including a link to a public Google doc.^{48, 49} Google quietly scrubbed Dr. Todaro’s memo. This was six days *before* the President endorsed HCQ. Google apparently didn’t want users to think Todaro’s message was *missing*; rather, the Big Tech platform wanted the public to believe that Todaro’s memo never even *existed*. Google has a long history of suppressing information that challenges vaccine industry profits. Google’s parent company Alphabet owns several vaccine companies, including Verily, as well as Vaccitech, a company banking on flu, prostate cancer, and COVID vaccines.^{50, 51} Google has lucrative partnerships with all the large vaccine manufacturers, including a \$715 million partnership with GlaxoSmithKline.⁵² Verily also owns a business that tests for COVID infection.⁵³ Google was not the only social media platform to ban content that contradicts the official HCQ narrative. Facebook, Pinterest, Instagram, YouTube, MailChimp, and virtually every other Big Tech platform began scrubbing information demonstrating HCQ’s efficacy, replacing it with industry propaganda generated by one of the Dr. Fauci/Gates-controlled public health agencies: HHS, NIH and WHO. When President Trump later suggested that Dr. Fauci was not being truthful about hydroxychloroquine, social media responded by removing his posts.’

COVID Tests & Diagnosis Inflated

PCR tests are inherently inaccurate and the COVID PCR have been calibrated in unusual ways to increase the likelihood of “false positives”. -

<https://standforhealthfreedom.com/wp-content/uploads/2021/01/The-Problems-With-PCR-Testing.pdf>

Medicare reimbursements for COVID diagnosis make it profitable for physicians to add COVID to diagnosis and cause of death -

<https://fee.org/articles/physicians-say-hospitals-are-persuading-er-docs-to-list-covid-19-on-death-certificates-here-s-why/>

COVID Statistical Fraud

The CDC violated the law in how it records and reports on data about COVID. Dr. Henry Ealy & Stand for Health Freedom have cross checked all of the data and found the discrepancies and are now leading an effort to begin Grand Jury Investigations into these violations in all 50 states.

Asymptomatic Testing is Not FDA Cleared Or Supported

“Because there’s no asymptomatic spread ... we never needed to close down the schools,” Dr. Peter McCullough said. “That means we never needed to wear masks, right, because you can’t spread it asymptotically. That means that there should be no asymptomatic testing.”

Vaccine Trials Rushed & Inadequate

In the case of the COVID vaccines, the FDA waived it's normally rigid system for approval of new drugs. Under tremendous political and time pressure, even the abbreviated trials that were done on the vaccines had rampant integrity issues.

<https://www.bmj.com/content/375/bmj.n2635>

Promotion of Drugs You Have an Interest In

From, "[The Real Anthony Fauci](#)": "Asked by *Bloomberg News* in mid-August about how the Trump White House had promoted HCQ "despite its repeatedly being shown to be ineffective and, in fact, to cause heart problems in some patients," Gates happily responded: "This is an age of science, but sometimes it doesn't feel that way. In the test tube, hydroxychloroquine looked good. On the other hand, there are lots of good therapeutic drugs coming that are proven to work without the severe side effects."⁸² Gates went on to promote Gilead's Remdesivir as the best alternative, despite its lackluster track record compared to HCQ. He didn't mention having a large stake in Gilead,⁸³ which stood to make billions if Dr. Fauci was able to run remdesivir through the regulatory traps."

Nuremberg Code - Human Experimentation

The Nuremberg Code was created after World War II as an agreement between nations and governments to prevent mass genocide and other crimes against humanity that are the legacy of World War II. The United States is a signatory to the Nuremberg Code. There are specific definitions of "Permissible Human Experiments". One of which is "The voluntary consent of the human subject is absolutely essential."
